SCHOLARSHIPS

I. Gifts

1. The Birmingham News has discontinued offering News Scholarships for 1933-34. The three holders not yet graduated will be continued through to graduation, but no new scholar will be appointed for 1933-34.

2. **United Daughters of Confederacy Scholarships.** The Alabama Division of the United Daughters of the Confederacy has raised a fund of \$2,500 for the establishment of two scholarships at Alabama College, known as the Virginia Clay Clopton Scholarship and the Sallie Jones Scholarship, and only the proceeds, \$200 annually, or \$100 each, can be used.

To be eligible for a State U. D. C. Scholarship a girl must be a resident of Alabama; a descendant of a worthy confederate soldier; unable to complete her education without financial assistance; prepared to enter a college class; must take one of the technical courses; and must secure the endorsement of the Alabama Division U. D. C. Scholarship Committee. All applications must be sent to Mrs. L. M. Bashinsky, Troy, Alabama.

3. **Lizzie Crenshaw Memorial Scholarship.** Mrs. J. H. Crenshaw, former President of the Alabama Division of the United Daughters of the Confederacy, presented to Alabama College the sum of \$1,250 for the establishment of the Lizzie Crenshaw Memorial Scholarship. The interest on this sum, \$100 per annum, is to be awarded to some worthy girl on the same conditions as the other U. D. C. scholarships.

4. **Lucy Harper Hall Scholarship.** In 1927 Mrs. J. B. Hall, of Chicago, donated the sum of \$2,500, the income from which is to be used to provide two scholarships of \$75 each year at Alabama College.

5. **Linly Heflin Unit Scholarships.** Through the generosity of the Linly Heflin Unit of Birmingham two scholarships covering all college expenses were established in 1926. Additional scholarships have been provided each year so that for the 1932-33 session five students were provided for by the Unit.

6. **Alabama Contest Scholarships.** In the annual Inter-High Meet, held at the college in March each year, the college awards five scholarships of \$50 each to the winner in Piano, Voice, Violin, Organ, and Speech.

II. Loan

1. **Alumnae Scholarship.** The Alumnae Association maintains a loan scholarship, the beneficiary of which is selected by the Association at the annual meeting in May.

2. **The Myrtle Brooke Scholarship.** This scholarship is a revolving fund of \$250, founded by the first year's social work students of Alabama College, available to prospective students in that particular field.

The founding of the scholarship is an effort on the part of these students to express their appreciation of one who has contributed much toward the development of scientific social work in the State of Alabama, and through whose wisdom and forethought the establishment of a Department of Social Work at Alabama College was made possible.

The Myrtle Brooke Scholarship Fund does more than pay tribute to the pioneer spirit of a teacher who is loved and admired. It commemorates the first training course for social workers in the State, as well as the first group of students to enter the course.

3. **Hortense A. Battre Loan Scholarship.** The Colonial Dames of Alabama at their annual meeting in March, 1926, established a loan scholarship of \$100 annually for four years at Alabama College.

4. **Charles Rendell Calkins Scholarship.** This scholarship was established in 1922 by the Senior Class of that year. It is valued at \$150.

5. **D. A. R. Scholarship.** In April, 1929, the Alabama Society Daughters of the American Revolution voted to place a \$250 senior loan scholarship at Alabama College. This scholarship is available only to seniors and was available for the first time during the 1929-30 session.

6. **Federation of Women's Clubs Scholarships.** The Alabama Federation of Women's Clubs, at its third annual meeting, held in Anniston in May, 1897, began its active work for the Montevallo school. At the suggestion of Mrs. James L. McConaughy, of the Montevallo Studios, the Federation, through some of the individual clubs, established the "Studiosis Loan Collection" of books as a nucleus for the institution's library, and also contributed to a scholarship fund.

At the Selma meeting in May, 1898, the Federation established the "Kate Morizette Scholarship" at Montevallo and at Greenville in 1909, voted to name its other

scholarship in honor of a pioneer worker, the "Conra McConaughy Scholarship."

At Mobile in 1911 the Federation accepted a gift of one hundred dollars from Miss Francilla Romah Haley, of Jasper, to establish the "Elizabeth Haley Moore Scholarship". In 1916 she added \$125, making a total of \$225.

To obtain one of these Federation Scholarships a girl must meet these requirements: be a resident of Alabama; be unable to complete her education without financial assistance; be able to enter a class in which she may be graduated in two years; secure the endorsement of the college and the endorsement of the Federation Loan Scholarship Committee; sign a note to pay back, within a stipulated time, whatever amount has been lent her.

Among the scholarships awarded to Alabama College are the following:

- a. Kate Hagan Scholarship, \$100.
- b. Kate Morizette Scholarship, \$200.
- c. Conra McConaughy Scholarship, \$200.
- d. Modern Study Club, Jasper, \$150.
- e. Kenilworth Club, Birmingham, \$100.
- f. Mary Hill Randle Scholarship, \$225.
- g. Jennie Mina Darling O'Neal Scholarship, \$225.
- h. Fourth District Federation, \$200.
- i. Minnie Holman Phillips, \$200.
- j. Elizabeth Haley Moore, \$225.
- k. Bessie Baker Memorial, \$50.

7. **Library Science Scholarship.** Mrs. Caroline P. Engstfeld, of the Alabama Library Association, announced in 1930 one Library School Scholarship of \$100 for Alabama College. This was given by Mrs. T. D. Parke, of Birmingham.

8. **Mary Alice Mizell Scholarship.** This scholarship was established in 1924 by Miss Mary Alice Boyd, of the Department of Education, Alabama College, for \$100. In 1925 she added \$50 to this amount. This scholarship is to be held by a member of the senior class.

9. **Opportunity Scholarship Fund.** Alabama College was fortunate in securing a loan fund of one thousand dollars from Mrs. Maud Preuit Fennel, of Leighton, Alabama. This fund was given to the college through Mr. C. M. Mauldin who is serving as a trustee of the fund. It is entitled the Opportunity Scholarship Fund,

and it is hoped that it will be added to very largely by others who are interested in the education of young women.

The purpose of this fund is to enable students, who have reached the junior or senior year and cannot complete their work for the degree, to go through to graduation. The limit to any one individual is \$200 per annum. This will be paid back by the scholarship holder after finishing at the institution.

Its purpose is not to offer **Charity but Opportunity.**

Approximately twenty-five young women from all parts of Alabama have been helped by this fund.

10. **The Alta Patterson Memorial Scholarship.** This scholarship was established during the 1928-29 session by the faculty of Alabama College, members of Miss Patterson's family, and her friends.

Miss Patterson, a member of the Home Economics faculty, died in Paris in the summer of 1928 while on a trip through Europe. Loans up to \$250 per year may be granted to seniors, juniors, and sophomores, preference in order stated.

11. **School of Education Scholarships.** The School of Education at Alabama College grants four teaching scholarships. These scholarships pay school expenses for the time the student is in college. In order to qualify for one of these scholarships a person must have completed the two-year elementary teacher-training course at Alabama College, or be a graduate from a class A normal school. Preference will be given to applicants who have had teaching experience.

The recipients of these scholarships teach half time in the training school and pursue college courses not to exceed ten credit hours a semester.

The training furnished in the collegiate courses and the work in the training school should fit the student upon graduation to enter the supervisory field.

Applications for these scholarships should be made to the Director of Teacher Training, Alabama College, Montevallo, Alabama.

12. **Sociology Loan Fund.** This fund was established during the summer of 1930. Mr. Ike Nathews, manager of the College Shoppe and the Dollar Store of Montevallo, generously gave the sum of \$250 to start the fund

with the understanding that substantial additions would be made from time to time.

The purpose of the fund is "to aid students who have completed one or more years of college work and who cannot continue in school without help. Preference in loans shall be given those needing small amounts, it being the desire of the donor that as many as possible who have made a good beginning may be enabled to continue in school."

In consideration of the needs, and in appreciation of the patronage which comes from Alabama College, the donor has already made several additions to the fund.

13. **Special Scholarship.** The amount of this scholarship is \$100 and is to be awarded to a member of the senior class. Mrs. T. H. Napier's Sunday School Class raised the money over a period of five years and it was available first in the 1930-31 session.

14. **Special Fund.** Campus organizations of the college were generous in their support of scholarship funds during 1932-33, and the demand was unusually great. In addition to individuals who contributed generously to students in need, the following organizations made contributions: Montevallo Music Club; American Association of University Women; Y. W. C. A., and Athletic Association.

Appeal for Other Scholarships

Alabama College is maintained by the state for the higher education of its young women, both in cultural and practical lines, to prepare them for the duties of life and for useful employment whereby they may become self-supporting.

The institution does not deny its privileges to any worthy young woman, but there are many deserving young women who cannot attend because of lack of funds. The college invites the attention of public spirited citizens to this condition and asks the consideration of an award of two hundred fifty dollars toward the education of a student for the scholastic year, the contributions thus made to be expended according to the judgment of the president.

GENERAL STATEMENT

History

THE Alabama College, formerly known as the Alabama Girls Industrial School, was created by a bill introduced into the State Senate in 1892 by the Hon. Sol. D. Bloch, of Camden. The bill became a law in February, 1893, with the provision that the act should go into effect after January 1, 1895. On January 1, 1896, the school was located at Montevallo, Shelby County, and on October 12 of that year began its first session. The act changing the name to the Alabama Girls Technical Institute was approved by the Governor, February 20, 1911, and the School Code of October, 1919, approved September 26, 1919, changed the name to Alabama Technical Institute and College for Women. On September 9, 1923, the name was changed to Alabama College.

Alabama College is a standard college, granting the B.A., B.S., and B.Mus. degrees. In December, 1925, the college was admitted to full membership in the Southern Association of Colleges and Secondary Schools, in January, 1928, it was admitted to membership in the Association of American Colleges, in April, 1931, it was approved by the American Association of University Women, and in December, 1931, the School of Music was accredited by the National Association of Schools of Music.

The purpose of Alabama College, as set forth in the Alabama School Code, October, 1919, adopted 1907, is as follows:

"The college is established for the purpose of giving therein instruction in the liberal arts and sciences and in technical subjects suitable for women, and to this end the following academic and technical departments are established: 1. English, literature, expression; 2. Mathematics and astronomy; 3. History and political economy; 4. Education, psychology, sociology; 5. Ancient languages; 6. Modern languages; 7. Chemistry, physics, geology; 8. Biology, bacteriology, zoology; 9. Physiology, sanitation; 10. Agriculture, dairying, floriculture, horticulture; 11. Art, painting, manual training; 12. Home economics; 13. Vocal and instrumental music; 14. Commercial branches—stenography, accountancy, typewriting, secretarial practice. Other departments or subjects may

be established from time to time by the trustees upon the recommendation of the president and faculty, that women may have the opportunity for general education and for special preparation for home-making, extension service, teaching, and for becoming self-supporting in trades and industries and in the business world."

Campus

When Alabama College was founded the campus consisted of thirty acres. Since that time it has been found necessary, from time to time, to add to it and at present it contains about 106 acres, including the land on which the training schools are located, and which was given to the college by the Town of Montevallo.

A plan of campus improvement and beautification has been made for the college by landscape architects of national reputation, and all changes are being made in accordance with this plan.

Location

Montevallo is a picturesque village near the geographical center of the State. The unusually beautiful scenery of the surrounding country and the quiet, reposeful atmosphere of the place are, educationally speaking, valuable assets to the college.

Buildings and Equipment

The buildings comprise Palmer Hall, Bloch Hall, Reynolds Hall, Calkins Hall, Library, King House, Storr's Residence, High School and Elementary Training School Buildings, Main Dormitory, Ramsay Hall, Hanson Hall, Peterson Hall, the President's House, the Power House, Laundry and Dairy.

Thomas Waverly Palmer Hall. This building was completed in February, and dedicated April 28, 1930. It contains the administration offices, a handsome auditorium which furnishes seating capacity for approximately sixteen hundred students, and one of the finest institutional pipe organs in the country.

Bloch Hall was completed, equipped, and used for the first time during the session of 1915-16. It is named in honor of Mr. Sol. D. Bloch, of Camden, Alabama, who was the author of the bill establishing the college, and who served continuously as a member of the board of trustees from its organization to October 23, 1919.

Reynolds Hall was erected in 1851 when the Montevallo Male Institute was incorporated as a joint stock company. The lot was donated by Edmund King. In front of this building the men from Montevallo and the vicinity were mustered into service at the time of the War Between the States. There the regiment received the flag that the women of Montevallo made and presented it. After the war the Cumberland Presbyterians were unable to carry on this school, which they had bought; hence they turned their college over to one of their ministers. Reverend W. H. Meredith conducted here a high grade school for women for twenty years. When Alabama College was founded this building became its home, and a frame building in the shape of three sides of a square was added about 1900. This building was torn down when the new music hall was built in 1918. Reynolds Hall contains an auditorium, a gymnasium, part of the academic classrooms, the supply store, and college post office.

Calkins Hall was completed in 1917. It is of fire-proof construction containing the director's room, music classrooms, studios, practice rooms, and a beautiful recital hall. This building is devoted entirely to the teaching of music. It is of most unusual charm and permanence, from the carved stone entrance to the lovely concert room upstairs. It is named in memory of Charles Rendell Calkins, director of music 1913-1920.

The Alabama College Library, dedicated in March, 1923, occupies a central location on the campus. In harmony with its surroundings, the building is of Italian Renaissance architecture, of red brick with carved limestone trimmings. The first floor contains the librarian's office, the cataloguing rooms, the large stack room open to the entire student body, and the main reading room with a seating capacity of 150. The periodical reading room and the Shelby County Library—a collection for the use of the schools in the county—occupy the second floor.

The Library, including the collection housed in the Training Schools, contains approximately 28,000 volumes, well selected and adapted to the needs of the several departments. The collection is classified by the Dewey Decimal Classification, and is catalogued by author, title, and subject matter. About 150 periodicals are subscribed to, the greater number of which are indexed in The Readers'

Guide, Education Index, or The International Index. The Library also subscribes to representative daily papers.

With the exception of a few special collections, books may be drawn for two weeks by faculty, administrative officers, and students. Books devoted entirely to one department may be drawn by the professor for use in his department for the semester. The Library is open from 8:00 A. M. to 9:30 P. M.

King House, an historic building on the campus, erected in 1818, is temporarily used for offices by the Sociology and Psychology Departments.

Storr's Residence. This building was located in the southeast corner of the campus. It has been moved and remodeled so that it serves as a home economics building for the Home Economics Department of the Training School.

High School Training School Building. In March 1929 the junior and senior high schools, which had been housed for many years in Reynolds Hall on the college campus, were transferred to a new training school building which was erected through the co-operation of the County Board of Education, the State Board of Education, and Alabama College. The new building contains thirteen rooms and houses all the work of the two high schools except the home economics work.

Elementary School Training School Building. This building, constructed by the town of Montevallo and used for a number of years for a practice school, was deeded to Alabama College in 1928. It is a brick building containing nine rooms and a small auditorium and cafeteria.

Main Dormitory. This large brick building comprises three separate units, or dormitories, connected by cross halls. These three dormitories bear the honored names of distinguished teachers who have labored heroically for the institution for many years. The east wing, or unit, is called the Mary Goode Stallworth Hall; the central wing, the Annie Kennedy Hall; the west wing, the Elizabeth Haley Hall. These halls contain the parlors, reception halls, dining halls, and rooms for five hundred boarding students. The building is lighted by electricity and heated by steam. Besides the fourteen exits and usual fire escapes, cylindrical "Kirker-Bender" fire escapes are provided, these latter being placed at the rear of the Stallworth and Haley Halls.

Ramsay Hall. This dormitory is named for Mrs. Janet Erskine Ramsay, the mother of the public-spirited and philanthropic citizen, Mr. Erskine Ramsay of Birmingham. Mr. Ramsay gave \$100,000 to be applied on the erection of the dormitory. This building was begun early in 1925 and was available in September for the session 1925-26. It is magnificent throughout, thoroughly modern in every respect, and adequately equipped. It has sixty-six rooms and accommodates approximately one hundred twenty students.

Hanson Hall. This dormitory is named for Mrs. Wee-ona Hanson, the wife of Mr. Victor Hanson, publisher of the Birmingham News-Age Herald, who has been giving approximately two thousand dollars in scholarships at Alabama College each year, and who contributed a substantial sum for the erection of this building, which was completed in March, 1929. It is a thoroughly modern, fire-proof structure, well appointed in every way and equipped with Windsor pattern all-steel furniture. It has ninety-six rooms and accommodates approximately two hundred students.

Peterson Hall, the infirmary, named in honor of Dr. Francis Marion Peterson, who served the college wisely and faithfully for seven years as its second president, is situated about fifty yards from the Main Dormitory in a quiet place. It has accommodations for thirty-six patients.

WAPI Broadcasting Station. Through an agreement between the Alabama Polytechnic Institute, the University of Alabama, and Alabama College, the radio broadcasting station WAPI, at Birmingham, is now jointly owned by the three institutions. Alabama College has a remote control station in Palmer Hall and is thereby able to broadcast programs from the college campus.

Supply Store. The supply store, on the ground floor of Reynolds Hall, is for the convenience of the students. It furnishes, at about cost, anything needed in their school work. In connection with the supply store is the college post office, where mail is given out twice daily.

Dairy Farm. The dairy farm contains about two hundred acres, eighty-five of which are under cultivation. The remainder is in pasture and woods. The milking barn is of tile and concrete construction and has a capacity of eighty cows. Separated from the milking barn

is the milk room, which contains all of the equipment necessary for caring for the milk in a sanitary manner.

The feed barn, connected with the milking barn by a concrete walk, has a capacity of one hundred cows, and storage capacity for one hundred tons of hay. There are two silos connected with this barn with a capacity of 225 tons each.

The herd consists of over one hundred head of registered and grade Jersey and Holstein cattle. From the standpoint of the health of the student body the dairy plant is considered to be one of the most important features of the college.

President's Residence. The residence for the President is located in a beautiful grove at the highest point on the northern end of the campus. It is of colonial architecture and harmonizes beautifully with its surroundings.

Power House. The power house is a brick building located on the back campus. This building is equipped with modern heating and lighting equipment, and supplies heat and light to the other buildings on the campus. The plant is operated by skilled engineers in a highly efficient manner.

Laundry. The laundry is in a building adjacent to the power house which supplies it with steam and electricity for the operation of its machines. All of the laundering for the teachers, students, and departments of the college is done there. It is equipped with modern machinery and is in charge of an expert.

Gymnasium. Physical Education includes activities in the gymnasium, with its exercise room, lecture room and office, in the out-door swimming pool with its dressing rooms and showers, on the four tennis courts, on the three outdoor and one indoor basket ball courts, on the two volley ball courts and the two large fields which are used for soccer, hockey, field ball, speedball, baseball, etc.

Recreation Room. The large room on the second floor of the Main Dormitory, formerly used as the library, has been converted into a recreation room for the students. The furnishing of this room, to the value of \$700, was generously donated by Loveman, Joseph & Loeb, of Birmingham.

Water Supply. The college has an adequate water

supply for drinking and sanitary purposes and for fire prevention. This water is secured from two springs and is stored in two tanks of thirty and of one hundred twenty thousand gallons capacity, respectively. From these tanks the water is distributed throughout the buildings.

Fire Protection. At convenient and accessible points within the buildings are located chemical fire extinguishers, in addition to an ample supply of fire hose. Outside the building nine fire plugs supply thirteen openings to which fire hose can be attached. Two fire hose carts, each containing five hundred feet of hose, are conveniently housed, so that in a very brief period of time several streams of water can be concentrated at any point in the event of such a necessity. Two fire drills are held each month.

Laboratory Equipment

The Biology and Bacteriology Department occupies five rooms in Bloch Hall. The laboratories are equipped with compound microscopes, dissecting lenses, a supply of mounted slides, three sterilizers, two incubators, autoclave, hot air oven, Wasserman bath, baloptican moving picture machine, and plant and animal specimens, together with the small equipment necessary to give courses in biology, botany, and bacteriology.

The Chemistry and Physics Department is located in the basement of Bloch Hall, occupying seven rooms in the northeast end of this building.

Each laboratory is equipped with standard furniture consisting of Alberlene stone-top desks and side shelves for reagents. Hoods are supplied in the general and quantitative laboratories. A lecture room, accommodating forty-eight students, a stock room, and office space for instructors are also provided. Ample equipment and supplies are kept on hand for experiments in all courses offered in this department.

The School of Home Economics is housed mainly in Bloch Hall. Departmental facilities consist of four faculty offices; a student reading and social room; two lecture rooms; two clothing laboratories; two food and nutrition laboratories; a dining room and home service kitchen which are used for meal service; an animal experimentation room; a household management and equipment testing laboratory; two eight-room home management houses, one at Montevallo and the other at Columbi-

ana, where home economics students live as a "family group" for a definite period, putting into practice the fundamental principles of homemaking under the direction and supervision of a home economics faculty member; and a well equipped nursery school cottage and play yard, situated on the campus. Experience in teaching is provided for all students preparing to teach home economics in high schools through the home economics departments of the Montevallo and Shelby County High Schools. These two departments are approved by the State Division of Vocational Education.

GENERAL INFORMATION

In April of each year the college books are opened for reservation of rooms in the dormitories for the following session. No room is reserved until the advance fee, \$2.50, is paid, which is credited on the student's account. If, after paying the fee, the applicant finds that she cannot attend, it will be refunded, provided the President is notified before August 15; otherwise it will not be refunded.

In reserving room space, it is distinctly understood that the pupil must be present at the opening of the session to claim the reserved space, or a satisfactory reason for being late must be sent in advance by wire or in writing to the President; otherwise, the reserved space is forfeited and the fee will not be refunded.

An applicant can reserve space for herself only. A separate application and advance fee must be made by each student.

When an applicant has made a room reservation and for any reason decides that she will be unable to attend Alabama College she is not permitted to transfer her reservation to any other person. This may be done by the college authorities only.

When a student has enrolled, a room will be assigned her with one or two roommates. The right to change at any time, either room or roommates, is reserved by the college authorities.

All letters to students should be addressed to box number, Alabama College, Montevallo, Alabama.

No cooking is allowed in the main dormitory.

Special effort should be made by students to reach Montevallo on the opening day, so that they may be classified and begin recitations with their respective classes.

Students are advised to enroll in the Bursar's office before the close of the day, September 14, and save payment of the late registration fee of \$2.

Students may entertain guests in the dormitories by registering their names in the office of the Main Dormitory and arranging with the Food Supervisor for their meals. The stay of guests is limited to three days.

Employment of Students

Employment is offered to about sixty pupils in dormitory and dining room service. For this work fair and reasonable compensation is paid. The pupils so employed can use the money thus earned in paying a part of their college expenses. As a matter of fact, all who are so employed pay a large part of their college dues in this way.

Health

To care for the health of the students the college maintains a modern, well-equipped hospital—Peterson Hall—with a capacity of thirty-six beds. A full-time woman physician and two nurses live in the hospital.

Daily office hours are held for consultation. As soon as college opens, the Physician, in co-operation with the Department of Physical Education, makes an examination of every student.

Inquiries and correspondence concerning the health of students should be addressed to the college physician.

Records and Grades

Final grades for each semester are recorded and preserved. In determining these grades, daily work, laboratory work, and written work are combined with the final examinations.

The grades are indicated by letters which have the following value: A—Excellent; B—Good; C—Average; D—Passing; E—Conditional; F—Failure; I—Incomplete.

The passing grade is D. E indicates condition which may be removed by examination. F indicates that the work must be done over in class. An E or an I must be removed during the semester after the E or I has been made.

In the case of junior and senior students who elect freshman or sophomore subjects, the passing grade is C.

Students who are absent more than one-sixth of the total number of recitations during any semester are not allowed the privilege of final examinations except by special permission of the dean—but are required to take the work over in class.

Graduates or other former students who desire transcripts of their college records should write to the Registrar. One complete transcript of record is furnished free. A charge of one dollar will be made for each additional copy.

Condition Examinations

Condition examinations for the first semester will be given on November 18, 1933. All applications for these examinations must be in the Dean's office before November 1, 1933. Condition examinations for the second semester will be given on April 14, 1934. All applications must be in the Dean's office before March 28, 1934.

Semester System

Alabama College uses the semester system. In this division of the academic session, the year consists of two semesters of eighteen weeks each and a summer school of approximately twelve weeks. A student may enter at the beginning of any semester and resident study during any two semesters or three summer schools is the equivalent of one year. This makes it possible for a student, who is physically strong enough to stay in school with short vacation, to complete the college course in a shorter time than is usually required.

Unit of Credit

The unit of credit is the semester-hour, which is the equivalent of one hour of recitation with two hours of preparation a week for a period of eighteen weeks. As a rule, two hours of laboratory work count as one hour of recitation or lecture.

Schedule of Work

The usual schedule of work for a student is sixteen hours each semester, exclusive of physical education. Thus, one hundred twenty-eight hours, exclusive of physical education, are required for the conference of a degree. Sixty-four semester hours, exclusive of physical education, are required for graduation in the two-year course in secretarial science.

Extension Courses

For a number of years Alabama College has given courses in extension when groups of teachers have requested them. No extra faculty has been employed for this purpose and the direction of it has been in charge of H. W. James, Director of the School of Education. The work has grown to such an extent that the college has had to limit its activity in this field. For types of work offered, see extension study under the School of Education.

Course Numbers

The following system of numbering courses has been adopted:

Freshman courses that extend through both semesters are numbered 101-2, 111-2, 121-2, 131-2, and 141-2. One-semester courses are numbered 151-2, 161-2, 171-2, 181-2, and 191-2. One-semester courses that are repeated during the year are numbered 100, 110, 120, 130, etc., to 190.

Sophomore, Junior and Senior courses that extend through the year are numbered from 201 to 242, 301 to 342, and 401 to 442, respectively. One-semester courses are numbered 251 to 292, 351 to 392, and 451 to 492, respectively; while those that are repeated during the year are numbered in multiples of ten, Sophomore courses from 200 to 290; Junior courses from 300 to 390; and Senior courses from 400 to 490.

The first number represents the class and the last number represents the semester in which the course is given, except that courses numbered in multiples of ten may be offered either the first or second semester.

The decimal point is used to indicate that education credit is given for courses in other departments. Each subject is given a number of its own to use after the decimal point. The number after the decimal point designates the accredited department as follows:

.1 Art	.6 Music
.2 English	.7 Physical Education
.3 Foreign Language	.8 Science
.4 History	.9 Speech
.5 Mathematics	.10 Secretarial Science

Boarding Arrangements

About 850 students can be accommodated in the three dormitories. Assignment of rooms is made according to the date of application.

Only single or three-quarter beds are used.

Each student is expected to keep her room in order.

The evening study period is for three and one-half hours—7:30 to 11:00.

Each student should bring with her: 1 teaspoon, 2 bedspreads, 1 glass, 1 pillow, 2 pillow cases, 4 sheets, 1 pair of blankets, 1 comfort, 1 umbrella, 6 towels, 2 clothes bags, 1 rain coat, 1 pair overshoes.

Each student is requested to bring with her six Indian Head napkins, hemmed on all sides, twenty inches square.

These napkins are to be given to the Food Supervisor for the use of the student during the year, but will not be returned to her.

Speech Fees

	Session	Semester
One private lesson per week and practice	36.00	18.00
Two private lessons per week and practice	60.00	30.00

Music Fees

See School of Music, pages 117-134.

After the student begins lesson in piano, voice, violin, or organ, tuition will not be refunded, but in case of continued illness the lessons will be made up.

Payments Due

All charges are payable in advance, in two installments on the first day of each semester, as follows:

September 11—Room, board, laundry, tuition and other general fees	\$141.00
January 22—Room, board, laundry, tuition and other general fees	141.00

In addition to these amounts for all boarding students, the music, expression, and special laboratory fees must be paid on the same dates by students taking these subjects.

These rates are for students who live in Alabama and who attend for the entire session. No period of less than three weeks at entrance will be considered in a reduction of the charge for room, board and laundry. Students who enter three weeks after the beginning of a semester will be charged all of the fees for that semester and for room, board, and laundry, at the rate of one dollar a day from the date of entrance to the date of the next regular payment. The payment must always be made on entrance.

Estimated Expense for First Semester

The foregoing is an account of the expense for the entire session and for each semester. Below is given an estimate of the amount of money a student boarding in the dormitory should be provided with on entering the school. This amount, of course, will vary according to the class which a student enters, and to the course she takes. A student taking music is required to buy her own music. Since the cost of books used in different classes and courses varies the estimate given below should not be taken too literally.

General fees (the same for all)	\$ 42.00
Room, board, laundry (same for all)	99.00
Regulation gymnasium suit	2.50
Books, etc. (may be more or less)	15.00
	<hr/>
	\$158.50

A prospective student, therefore, when she leaves home should be provided with \$158.50 in addition to her traveling expenses, in order that she may enter school, procure books, etc., and begin recitations without delay. Should the student take music, expression, or any of the subjects for which a special laboratory fee is charged, she should be prepared to pay those fees. All students from states other than Alabama should be provided with \$12.00 in addition to the amount mentioned above.

Advance Fee for Room Reservation

A student desiring to reserve room space before entering college should send an advance fee of \$2.50 with application. This amount will be credited on her account.

Out of State Students

Pupils from other states than Alabama will be charged an additional fee of \$24 payable \$12 per semester with the regular payments.

Local Students

Local students, or those not boarding in the dormitories, do not pay the college for room, board, and laundry, or for medical and medicine fees, but must pay tuition and other fees on the first day of each semester.

Refund

A student who withdraws before the end of a semester will receive a rebate on room, board, and laundry, determined in the following manner:

She will be charged one dollar a day from the beginning of the semester to the date her resignation is in the hands of the President and this amount will be deducted from the payment for board for the whole semester. The amount remaining will be refunded to her. No refund is allowed for a leave of absence.

In no case will any part of college fee or any other fee before mentioned be refunded.

COLLEGE STANDARDS

Absences

Permission to be absent from the college will be granted only on written request from parent or guardian.

Alabama College does not recognize absences in the sense of relieving the student of responsibility for work missed when away from class. Students who have enforced absences due to personal illness or death in family, and students who are absent on leave, may be granted the privilege of making up the work missed, but students who are absent voluntarily will receive deductions from their class grades by the instructors in charge.

The form to be used for enforced absence and absence on leave may be secured from the office of the Dean and presented to the instructor from whose class the student has been absent. This form should be submitted within five days after the period of absence.

Changes in Course of Study

All changes in course of study must be passed upon by the Dean before they become valid. No changes will be allowed after the second week from the date of entrance.

The usual number of hours required of a student is sixteen, plus one hour for physical education. By special permission, however, a student may be allowed to take as many as twenty hours, if her scholastic standing is sufficiently high to warrant it.

Any pupil who enters a class which is not listed on the Registrar's card and without the permission of the Dean will not be given credit for the work so taken.

Late Registration

All students are required to register at the beginning of each semester. Those who register later than September 14 of the first semester and January 24 of the second semester will pay a late registration fee of \$2.00.

Classification

To rank as a member of the freshman class, a student must have presented fifteen units of high school credit.

To rank as a member of the sophomore class, a student

must have twenty-seven semester hours' college credit and twenty-seven grade points in addition to the fifteen high school units required for admission to the freshman class.

To rank as a member of the junior class, a student must have sixty semester hours' college credit, and sixty grade points, in addition to the fifteen high school units required for admission to the freshman class.

To rank as a member of the senior class, a student must have ninety-four semester hours' college credit, and ninety-four grade points, in addition to the fifteen high school units required for admission to the freshman class.

A student entering with one of the rankings given above may be promoted to a higher ranking at the end of any semester provided she has the total number of hours and grade points required for the completion of the year from which she is to be promoted.

Scholarship Requirements

The following represents the basis upon which credits and grade-points are earned and recorded:

A—Excellent	3 grade points per hour
B—Good	2 grade points per hour
C—Average	1 grade point per hour
D—Passing	0 grade points
E—Conditional	0 grade points
F—Failure	0 grade points
I—Incomplete	0 grade points

Grade points for advanced credits are given on the basis of work done during the first semester at Alabama College.

Requirements for Graduation

Degrees

The degrees of bachelor of arts, bachelor of science, and bachelor of music have been granted by the college since the 1923-24 session.

The following are the requirements common to all degrees:

1. Each applicant for a degree must show credit for 128 semester hours of work in keeping with the curriculum she is pursuing, plus 8 semester hours of physical education and 136 grade points.
2. Two years of English are required of each applicant for a degree.
3. A candidate for the B.A. degree must make an

average of "C" in her major and minor departments, and a candidate for the B.S. degree or the B.M. degree must make an average of "C" in her major department.

4. Should any student fail to earn the requisite number of grade points by the time she has completed the courses specified for a given degree, in order to secure her degree she must take enough additional work to earn the required number of grade points. Such courses must be approved by the Dean.

5. In case of students who have transferred credits from other institutions the average of the work done during the first semester at Alabama College will be taken as the average of the work so transferred, and this average plus the average earned at Alabama College will be the basis upon which grade points are counted and honors awarded.

6. No student will be allowed to take more than 18 hours of work, except one who has an average of "B" in the previous semester's work, the consent of the college Physician, the Head of the major department, and the Dean.

Two-Year Course

All two-year curricula have been eliminated from Alabama College except the one in Secretarial Science, which is designed to give students training in typewriting, stenography, business English, bookkeeping, and other subjects, so that they may qualify as secretaries.

For graduation in a two-year curriculum, each applicant must complete 64 semester hours, plus 4 semester hours of physical education, and earn 68 grade points.

(Note: Under special conditions a student may be excused from physical education, but such excuse will be granted only on the recommendation of the college Physician and the approval of the Dean. For such cases students will substitute credits earned in other courses to meet the deficiency in physical education.)

Honors

1. A student, who completes the work for a degree with as many as 340 grade points, or an average of B plus, will be graduated with **highest honors**, and this fact will be cited with the degree.

2. A student who completes the work for a degree with as many as 272 grade points, or an average of B, will be graduated with **honors**, and this fact will be cited with the degree.

Probation and Dismissal

1. A student whose general average is below D at the end of the first semester may be required to withdraw, or placed on probation, at the discretion of the Dean and the heads of the departments concerned.

2. If a student has taken 34 semester hours of work, whether she has passed it or not, and has fallen 25 below the standard number of grade points, one grade point for each hour of work pursued, she is subject to enforced withdrawal at the end of the second or any subsequent semester.

3. The college invites those who desire an education and who are willing to work whole-heartedly for the maintenance of high standards of conduct and scholarship. The college reserves the right to ask for the withdrawal of any student whose general conduct and attitude show definitely that she is a misfit at this institution and that she does not purpose conforming to its spirit, its standards, and its ideals. In a case of this kind a formal and specific charge will not be necessary.

Eligibility to Represent College

To be eligible to represent the college on any organization in public performance off the campus, a student must have passed all her work for the semester immediately preceding and show a satisfactory conduct record.

Standards of Conduct

It is earnestly desired that young women attending Alabama College shall have every privilege consistent with their welfare, and the purpose for which they are here. So far as practicable, regulations are dispensed with; but the College is deeply conscious of the responsibility placed upon it by the parents and guardians of the young women entrusted to its care. Every effort is therefore made to keep constantly in their minds the importance of high social standards, and to create a healthful and refining social atmosphere.

The Student Government Association, subject to the approval of the college authorities, adopts such regulations as are necessary for the social life of the college community. Every college student is expected to co-operate with the Executive Board and Senate in the observance of these regulations and to uphold their standards of conduct.

Students will not be allowed to remain in Montevallo after they have left the college for holidays, or at commencement, unless a written request for the privilege is addressed by the parent or guardian of the student to the Dean of Residence and is approved by her. Students wishing to visit homes in Montevallo must have written permission from their parents addressed to the Dean of Residence and approved by her, as well as an invitation from the head of the family she is to visit.

The college never grants permission to students to open accounts with the merchants of Montevallo. It discourages the making of such accounts and all unnecessary expenditures.

No student occupying the dormitories, or rooming in town, will be privileged to have for her use an automobile during the session.

ADMISSION TO COLLEGE

Methods of Admission

There are three methods of gaining admission to the freshman class:

1. By Certificate from an Accredited School. The requirement for admission by certificate is as follows:

A diploma from a standard high school or a certificate showing credit for 15 units' work and for four years of attendance in high school or high school and summer school combined.

If the 15 units' certificate shows credit for only three years of attendance, the applicant must take entrance examination on three units' work in fourth year high school subjects. If the certificate shows credit for $3\frac{1}{2}$ years of attendance she must take an entrance examination on one unit's work in a fourth year high school subject.

2. By Certificate and Examination. A graduate from a non-accredited high school who presents a certificate covering the work required for admission may be exempt from a part of the entrance examinations, provided the general character of the school attended, in the opinion of the admission committee, justifies such exemption. In such cases examinations are required in: one unit of rhetoric and composition, one unit of English classics,

one unit in history of literature, one unit of algebra, one unit of geometry, and one unit of history.

3. **By Examination.** An applicant who does not present a satisfactory certificate is required to pass examination on 15 units of high school work, including the prescribed subjects. Examinations for admission will be held next session beginning on September 13. Application for entrance examinations must be made to the Dean ten days before the opening of the semester.

Special Students

Applicants twenty years of age or over who desire to pursue special courses may be admitted without formal examination, but must give evidence of adequate preparation to the instruction committee and to the head of each department in which the courses are sought.

In no case does the special course lead to a certificate or degree. Special students cannot become candidates for degrees or certificates until all requirements for entrance have been met.

If a special student desires to room in the dormitory, she must carry at least fourteen hours of work, six or more of which must be in academic subjects. She must conform to all regulations governing other students.

Advanced Standing

A student may be admitted to advanced standing by presenting credits from an approved institution of collegiate rank.

Prescribed Subjects

Of the fifteen units of high school work required, the following are prescribed:

English	3 units
*Mathematics	2 units
History	1 unit

The remaining units may be selected from the other subjects that are accepted for admission, provided not more than four units are offered in vocational subjects.

*A graduate of a standard high school may be admitted without plane geometry. Such a student, however, must secure credit in this subject before beginning the sophomore year.

SUBJECTS ACCEPTED FOR ADMISSION

(A unit represents 4 or 5 class periods of 40 to 60 minutes each for 32 to 40 weeks)

CURRICULA

BACHELOR OF ARTS DEGREE

Requirements for Graduation

In order to receive the Bachelor of Arts Degree, a student must satisfy the following requirements:

1. Completion of 128 hours of college work plus 8 hours of Physical Education.
2. The 136 hours required for the A.B. Degree must be chosen subject to the following regulations:
 - a. Prescribed Work: 12 hours must be in English 101-2 and English 200, 210 or 220; *12 hours in one Foreign Language; 12 hours in History or Economics or Political Science or Sociology; 6 hours in Mathematics; 6 hours in one Laboratory Science.
 - b. Major Work: A student must complete a minimum of 24 hours in a major department. The major department should be chosen by the end of the sophomore year. The departments in which major work may be chosen are: English, Foreign Language, History, Mathematics.
 - c. Minor Work: A student must complete a minimum of 18 hours in one of the departments mentioned above or in a related field. The minor should be chosen by the end of the sophomore year with advice of the head of the department in which the major is taken, and should be approved by the Dean.
 - d. Physical Education: Completion of 8 hours of Physical Education is required at the rate of one hour each semester. Under special conditions a student may be excused from Physical Education by the college physician and the Dean. Such students will substitute credits earned in other departments to meet this deficiency.
 - e. Technical Courses: Not more than 20 hours may be selected from technical subjects.
 - f. Duplications: Credit toward a degree will not be given for work which duplicates work already done in college or preparatory school.
3. The last 6 hours of the major and minor subjects must be taken at Alabama College.
4. Students transferring from another institution must spend at least one nine-month session, including the last semester, in full time residence work and must secure credit for at least 32 hours in advanced courses.

*If the student has secured in the high school credit for at least two years of work in one foreign language, only 6 additional hours in that language are required.

Course of Study

The following are suggested courses for students desiring a liberal arts curriculum. This does not meet the requirements for the issuance of a teacher's certificate. Those interested in securing a College Secondary Class B Certificate along with the A.B. Degree must enroll in one of the curricula outlined under the School of Education. (See page 90.)

Students taking the liberal arts course may elect a maximum of thirty semester hours from home economics, art, or music, provided not more than twenty semester hours are technical in nature. The special subjects selected should begin in the freshman year and follow a regular sequence, to be determined by the head of the respective departments and approved by the Dean.

BACHELOR OF SCIENCE DEGREE

Requirements for Graduation

In order to receive the Bachelor of Science Degree a student must satisfy the following requirements:

1. Completion of 128 hours of college work plus 8 hours of Physical Education.
2. The 136 hours required for the B.S. Degree must be chosen subject to the following regulations:
 - a. Prescribed Work: 12 hours must be in English 101-2, 200, 210 or 220; *12 hours in one Foreign Language; 6 hours in History or Mathematics; **24 hours in either Biology or Chemistry, or in Biology and Chemistry. Two years of Biology and two years of Chemistry may meet the Science requirement.
 - b. Physical Education: Completion of 8 hours of Physical Education is required at the rate of one hour each semester. Under special conditions a student may be excused from Physical Education by the college physician and the Dean. Such students will substitute credits earned in other departments to meet this deficiency.
 - c. Duplications: Credit toward a degree will not be given for work which duplicates work already done in college or preparatory school.

4. Students transferring from another institution must spend at least one nine-month session, including the last semester, in full time residence work and must secure credit for at least 32 hours in advanced courses.

Courses of Study

The following are suggested courses for those desiring to specialize in science with a view to preparing to teach art, biology, chemistry, physical education and secretarial science in high school; also for those interested in doing social welfare work.

*Those taking teacher training course in Home Economics may be excused from Foreign Language.

**Those taking Secretarial Science Course may be excused from part of the Science requirements.

Bachelor of Science Degree Art

This course leads to a B.S. Degree and to a state certificate to teach Art in elementary or high schools. Students who do not wish to qualify for a teacher's certificate may substitute other electives for Education.

MISS MACMILLAN

MISS BRISAC

Art 100. Elementary Craft. An introductory course appealing to the native decorative instinct common to practically all normal persons. This course brings out the fact that good design enhances the value of raw material and that poor design is a calamity for both producer and consumer. Such popular crafts as basketry, lamp shades, leather work, decorative wood work, textiles, etc., are introduced with the idea of showing the value of further study in art structure or design. Two, four, or six hours a week. Credit, 1, 2, or 3 hours.

Art 101, 102. Drawing. An introductory course in representative and interpretative drawing. Drawing from objects and quick sketches from figure poses. Two or four hours a week. Credit, 1 or 2 hours each semester.

Art 111, 112. Art Structure. An elementary course dealing with fundamental principles. The first semester treats of line and tone; and the second of color. Must be taken in the order indicated. Required of all Art majors. Six hours a week. Credit, 3 hours each semester.

Art 131, 132. Drawing for Science Students. Representative drawing and painting from flower specimens, etc. Lettering, tracings and care of notebooks. Also, principles of arrangement. Two hours once a week. Credit, 1 hour each semester.

Art 141, 142. Elementary Pottery. A beginners' course in pottery and clay modeling. Given without prerequisite and for the same purpose as Art 100. Modeling and decoration of toys, masques, tiles, vases, bowls, etc. Four hours a week. Credit, 2 hours each semester.

Art 150. Related Art. This course is given primarily for Home Economics students. It considers fundamental art principles in relation to the three elements, line, tone, color. Six hours a week. Credit, 3 hours.

Art 201, 202. Drawing and Painting. Further training in representation and illustration. Still life and landscape composition. Prerequisite: except for Art majors, Art 102. Four hours a week. Credit, 2 hours each semester.

Art 240. Pottery. Lecture and laboratory work. The principles of art as applied to shapes in the round. Work with clay built up forms, modeling, etc. Also soap sculpture, mask making, cement work, etc. Required of Art majors. Prerequisite: Art 251, or 141 and 111. Six hours a week. Credit, 3 hours.

Art 250. Related Design. A course stressing the principles of art as applied to the problems of the home economics student. A special study of color in theory and practice. Prerequisite: Art 150 or Art 111. Credit, 3 hours.

Art 251. Art Structure. A course dealing with the three elements of art, line, tone, and color as affected by the various principles of balance, rhythm, subordination, etc. Prerequisite: Art 112. Required of all Art majors. Six hours a week. Credit, 3 hours.

Art 301, 302. Drawing and Painting. Advanced course. Still life, figure, and landscape work. Imaginative composition and illustration. Prerequisite: Art 202. Four hours a week. Required of all Art majors. Credit, 2 hours each semester.

Art 311, 312. Art Structure. Advanced course in design. Various problems having to do with decorative art. Each semester must be taken in the order indicated. Required of all Art majors. Prerequisite: Art 251. Six hours a week. Credit, 3 hours each semester.

Art 321, 322. Art Appreciation. Lectures and assigned readings and research. Open only to juniors and seniors. Required of all Art majors. One hour a week. Credit, 1 hour each semester.

Art 330. Mechanical Drawing. Lettering, use of instruments, working drawings, linear perspective, projections, elevations. Two hours a week. Credit, 1 hour.

Art 331, 332. Interior Decoration. This course is intended for those wishing professional training, and treats of art principles applied to house decoration. A study of historic styles and modern tendencies. Each semester must be taken in the order indicated. Prerequisite: Art 251. Art 330 may be taken parallel. Six hours a week. Credit, 3 hours each semester.

Art 341, 342. Clay Modeling. Advanced work in relief, modeling, and glazing. All taking this course are required to take a course in chemistry of glazing in their junior or senior year. Must be taken in the order indi-

cated. Prerequisite: Art 240. Six hours a week. Credit, 3 hours each semester.

Art 300.1, 350.1. Public School Art. A course given primarily for students preparing to teach in the elementary schools. The first term deals with fundamental art principles and their application. The second considers various problems for elementary and high school grades and gives practice in making outlines, courses of study, etc. Must be taken in the order indicated. Art 350.1 is required of all Art majors who expect to teach. Four hours a week. Credit, 2 hours each semester.

Art 400, 410. Commercial Art. Study of lettering, poster making, advertising layout and illustration, designing for reproduction, etc. Greeting cards, wood blocks, etching, etc. Prerequisite: Art 312. Open to juniors. Six hours a week. Credit, 3 hours each term.

Art 401, 402. Drawing and Painting. Advanced illustration and composition. Drawing from the cast and from life. Prerequisite: Art 302. Four hours a week. Credit, 2 hours each semester.

Art 411, 412. Art Structure. Advanced course in design. Prerequisite: Art 312. Required of all Art majors. Six hours a week. Credit, 3 hours each semester.

Art 421, 422. History of Art. A chronological survey of great historical epochs as expressed in the art of the times. The first semester, Ancient Art, and Medieval Art; Second semester, Modern Art. Open to juniors and seniors. Required of Art majors. Two hours a week. Credit, 2 hours each semester.

Art 431, 432. Interior Decoration. A further study of art principles applied to interior architecture, stage settings, etc. Elevations planned to scale, color schemes indicated in textiles, wall paper, paints, etc. Practical experience in decorating. Prerequisite: Art 332. Six hours a week. Credit, 3 hours each term.

Art 441, 442. Advanced Pottery and Clay Modeling. A continuation of the study of the junior year. Prerequisite: Art 342. Six hours a week. Credit, 3 hours each semester.

Art 471, 472. Applied Art. Advanced study and practice of various crafts. Work in leather, basketry, metal, textiles, etc. Semesters may be taken interchangeably. Prerequisite: Art 312. Six hours a week. Credit, 3 hours each semester.

Biology

MISS BLACKISTON

MISS GARRETT

MISS MOORE

Biology 101. Botany. A general course dealing briefly with the four phyla of the plant kingdom; the cell, functions of cells, and cell division; the kind, structure and uses of the root, stem, leaves, buds, fruits, and seeds; and a study of such algae, fungi, liverworts, mosses, and ferns as time will permit. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 102. Zoology. Beginning with the amoeba as representative of protoplasm, and of the lowest group of animals, the various phyla are studied in their evolutionary sequence. Time does not permit of a study of all the groups; but such representatives as the following are examined: Amoeba, Paramecium, Euglena, Pandorina, Volvox, Hydra, Obelia, Gonionemus, Grantia, Planaria, Tapeworm, Ascaris, Earthworm, and the Frog. A study is also made of the great scientists in various fields of biology, together with the contribution each has made. Prerequisite: Biology 101 or its equivalent. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 110. Zoology. The same animals will be studied as are listed for Biology 102, but the subject matter will be treated differently. Only students taking home economics and elementary education should register for this course. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 200. General Physiology. A special course for students in elementary education. The same topics will be discussed as in Biology 210, but not so much in detail. Two lectures a week. Credit, 2 hours.

Biology 210. General Physiology and Hygiene. This course is both practical and scientific as it treats of the structures and functions of the various organs of the body and means of maintaining them in health. Being a basic science it gives knowledge of the principles underlying Psychology, Physical Culture, Dietetics, and Hygiene. In addition, it is also designed to qualify the teachers of the elementary grades and high school for the intelligent direction of a systematic and effective health program in the home, school, and community.

One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 211. Anatomy. Lectures on the structure of the organs and systems of the human body are supplemented with a first hand study of the corresponding structures of the cat. The study of muscles is emphasized. Required of all students majoring in Physical Education. Two lectures and three two-hour laboratory periods a week. Credit, 5 hours.

Biology 212. Physiology. Lectures on physiology of the human body are supplemented with the laboratory study of live material. Students will be used as subjects when it is feasible. In other cases lower animals such as frogs, terrapins, etc., will be used. Those phases of physiology needed most in Physical Education will be stressed. Required of all students majoring in Physical Education. Two lectures and three two-hour laboratory periods a week. Credit, 5 hours.

Biology 252. Nature Study. This course is designed for teachers and is required of all persons preparing to teach in elementary schools. Those who teach biology in the high school will also be greatly helped by this course because it will furnish much valuable information in teaching. It consists of a study of both plants and animals in the field. Emphasis is placed on the study of birds, insects, local flora, and wild life in general. Studies in nature are demonstrated by assigned projects. Two two-hour laboratory periods a week. Credit, 2 hours.

Biology 262. Systematic Botany. Designed to acquaint the student with the latest views on the classification of the plant kingdom. Attention will be given to the collection and identification of the species of the local flora. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 301, 302. General Botany. Designed to teach the fundamental principles of botany. The four phyla are studied with relation to their evolutionary development. Course 301 will consist of a rather detailed study of a number of the representative species of algae, fungi, and liverworts and mosses. The advancement the liverworts and mosses have made over the lower forms will be noted and attention will be directed to the characters they have in common with the higher plants. Course 302 will be a continuation of Course 301 and will consist of a com-

parative study of the pteridophytes, gymnosperms, and angiosperms. In this study will be noted the gradual degeneration of the gametophyte, antheridium, and archegonium in contrast to the gradual development of the sporophyte with its roots, stem, leaves, branches, flowers, and fruits. Prerequisite: Biology 101. Two lectures and two two-hour laboratory periods a week. Credit, 4 hours each semester.

Biology 300. Bacteriology. This course will deal with the morphology, physiology, and cultivation of bacteria, yeast, and molds. Special consideration will be given to the relation of microorganisms to the preservation, preparation, and handling of foods; to their relation of water and milk supply and sewage disposal; and to the organisms occasionally found in various foods, water and milk that cause disease. The course will be of such a nature as is needed for students taking home economics and for those desiring to become acquainted with the fundamental principles of bacteriology and sanitation. Three two-hour laboratory periods a week. Credit, 3 hours.

Biology 310. Pathogenic Bacteriology. An historic consideration of the theories of disease and immunity together with a study of the morphology, physiology, cultivation, and methods of identifying the principal disease producing organisms. The organisms studied are those causing diphtheria, pneumonia, tuberculosis, anthrax, meningitis, scarlet fever, gonorrhoea, typhoid fever, dysentery, food poisoning, cholera, glanders, tularemia plague, tetanus, gaseous gangrene, syphilis, and leprosy. Rabbits are immunized, sera prepared, and agglutination tests made. Demonstrations of how animals may be protected against diphtheria toxin by the use of anti-toxin are performed on guinea pigs. Students are given the Schick test to determine whether or not they are immune to diphtheria and guinea pigs are used to show how animals may be made immune to diphtheria. Prerequisite: Bacteriology 300. Three two-hour laboratory periods a week. Credit, 3 hours.

Biology 320. Bacteriology. (Preventive Medicine, Parasitology, and Sanitation.) A general course dealing with the cause of the most common contagious, infectious, and non-infectious diseases, their importance, and how to prevent them. A laboratory study of the mosquito house-fly, malaria parasites, hookworm, Trichina, Ascaris, flea, bedbug, lice, etc., in their relation to human

diseases. Milk, water and sewage in relation to health. Care of the body so as to prevent disease. Methods of bettering home, school, industrial and city sanitation. Students desiring may take the lecture work and omit the laboratory work, but will receive only 2 hours of credit by so doing. Two lectures and one two-hour laboratory period a week. Credit, 3 hours.

Biology 330. Genetics. In this course a study is made of the Mendelian laws of heredity, and problems involving them are worked out. The work of Dr. T. H. Morgan with his *Drosophilas* is carefully examined and the principles of heredity involved noted. The hereditarian versus the environmental views are noted, the various theories of evolution are examined and a survey made of man in the Paleolithic and Neolithic ages. Three lectures a week. Credit, 3 hours.

Biology 351. Invertebrate Zoology. A study will be made of as many forms of invertebrates as possible not included in Biology 110. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 352. Vertebrate Zoology. This course will consist of a study of the vertebrates from a standpoint of comparative anatomy. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 371. Physiology of Exercise. Required of Physical Education majors. This course is not to be used by students taking a major in science for the purpose of satisfying the science requirement. Three lectures a week. Credit, 3 hours.

Biology 400. Plant Ecology. An elementary course dealing with the relation of plants to their environment. The distribution and association of vegetation will be considered. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 401, 402. Advanced Bacteriology. This course will deal largely with pathogenic bacteria and methods used in public health laboratories. All the organisms mentioned in Bacteriology 310 will be studied in great detail in the laboratory and methods learned for isolating them from patients and then in identifying them. Specimens which will be obtained from the State Health Department Laboratory will be given the students for identification. Studying animal parasites such as hookworm, *Trichina*, tapeworms, malaria parasites, etc.,

making blood counts of red and white cells and blood smears for differential counts; learning to classify groups of human blood for the purpose of transfusion; analyzing water, milk, urine; examining dog's head for rabies; and preparing materials for Wasserman and the making of test. Designed especially to prepare students to assist physicians and dentists as well as technicians for hospitals and state laboratories. One lecture and three two-hour laboratory periods a week. Credit, 4 hours each semester.

Biology 410. Embryology. A consideration of the early development of animal life. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 452. Entomology. A general study of the economic importance of insects in their relation to man, classification, and methods of control. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Note: Advanced courses will be offered only when classes are large enough to justify their being given. This will be determined by the head of the department.

MR. KENNERLY

MISS DECKER

MISS DUSCHAK

Chemistry 101, 102. General Chemistry. This course embraces a study of the common elements and their related compounds, along with fundamental chemical laws, theories, etc. Prerequisite to all other courses of Chemistry. Two lectures and one two-hour laboratory period a week throughout the year. Credit, 3 hours each semester.

Chemistry 201, 202. Qualitative Analysis. This course includes a study of the methods of separation and identification of the common metals and acid radicals in the laboratory, accompanied by classroom discussion of the methods of analysis and the underlying principles and theories. One lecture and two two-hour laboratory periods a week throughout the year. Credit, 3 hours each semester.

Chemistry 211, 212. Quantitative Analysis. Analyses involving both gravimetric and volumetric methods are given in this course along with numerous problems which ordinarily confront the analytical chemist. One lecture and two two-hour laboratory periods a week. Credit, 3 hours each semester.

Chemistry 220. Inorganic Preparations. This course is open to students who have had General Chemistry and who desire to do further work in this field. The course aims to instruct the student in the preparation and purification of a number of useful laboratory reagents, particularly the metallic salts. Two two-hour laboratory periods a week throughout one semester. Credit, 2 hours.

Chemistry 231, 232. Organic and Physiological Chemistry. This course during the first semester deals with the fundamental principles of Organic Chemistry, necessary to a more complete understanding of Physiological Chemistry. The second semester is devoted to Physiological Chemistry in which is taken up a study of fats, carbohydrates, and proteins, and the digestive action of the various body secretions on foods. A very brief study is also made of the blood and excretory products of the body. Required of all regular Home Economics students. Two lectures and one two-hour laboratory period a week. Credit, 3 hours each semester.

Chemistry 311, 312. Chemistry of Nutrition. This course is designed for those students who are doing their major work in Social Service or Sociology. The scientific value of foods is studied accompanied by laboratory experiments on the nutrition afforded by certain classes of foods. In so far as is practicable, the laboratory work will be developed along lines suggested by the student. Two lectures and one two-hour laboratory period a week throughout the year. Credit, 3 hours each semester.

Chemistry 321, 322. Physical Chemistry. A study of the fundamental laws and theories which enter into the science of chemistry is made in this course. Prerequisites: Qualitative and Quantitative Analysis. Offered with or without laboratory work. Three lectures or two lectures and one two-hour laboratory period a week throughout the year. Credit, 3 hours each semester.

Chemistry 401, 402. Organic Chemistry. A course in Organic Chemistry designed for those students who are majoring in this department or who desire to elect additional work in Chemistry. Two lectures and one two-hour laboratory period a week. Credit, 3 hours each semester.

Chemistry 411, 412. Physiological Chemistry. This course will deal with the chemical actions of various body secretions upon foods. Laboratory work will consist of experiments upon digestive secretions, urine, blood, etc.

Two lectures and one two-hour laboratory period a week. Credit, 3 hours each semester.

Physics 201, 202. General Physics. A general course in physics involving a study of the systems of measurements, laws of machines, gravitation, and electricity. Two lectures and one two-hour laboratory period a week. Credit, 3 hours each semester.

Physics 340. Physics. An elementary course in general physics with special emphasis on the principles used in household appliances and on the practical application of these principles. This course is designed for students in the Home Economics course. Two lectures and one two-hour laboratory period a week. Credit, 3 hours.

Majors in English. All students offering English as a major subject in the A.B. or the A.B. Secondary curriculum must complete with credit, in addition to the general freshman and sophomore English requirement, the following courses:

1. Survey of English Literature (301 and 302) ..6 Hours
2. Shakespeare (451)3 hours
3. A problem course (472 or 482)3 hours
4. A course in advanced composition or in the English language (360, 361, 461, or 462)....2 hours

All students taking the A.B. Elementary curriculum must complete with credit, in addition to the general freshman and sophomore English requirement, the following courses:

1. Literature for Children (310)3 hours
2. American Literature (320)3 hours
3. Shakespeare (451)3 hours

Minors in English. All students who offer English as a minor expecting to be recommended as teachers of high

school English must complete with credit, in addition to the general freshman and sophomore English requirement, the following courses:

1. Survey of English Literature (301 and 302) ..6 hours
2. Directed elective3 hours

The English Laboratory. All students, but especially those in the freshman year, who find that they are poorly prepared in the fundamentals of English composition are encouraged to spend some time each week in the English laboratory, where each student is given special drill adapted to her individual needs. The expense of supplying all materials needed in the laboratory is covered by a fee of \$1.00.

English 101. Freshman Composition. Practice in the basic forms of composition, both oral and written. Drill in mechanics. Required in all curricula. Four times a week. Credit, 3 hours.

English 102. Freshman Composition. A continuation of English 101. Reading in contemporary prose. Required in all curricula. Four times a week. Credit, 3 hours.

Sophomore Requirement. Two of the four courses that follow must be completed with credit by all students in the sophomore year. Each course is intended to secure orientation in a particular type of literature and to serve as an introduction to the general study of literature on a college level.

English 200. Types of Poetry. Credit, 3 hours.

English 210. Types of Prose Fiction.
Credit, 3 hours.

English 220. Types of Drama. Credit, 3 hours.

English 230. Types of Prose. Credit, 3 hours.

English 252. Business English. Chiefly letter and report writing. Required of two-year secretarial students. Prerequisite: English 102 or a grade of B in English 101. Credit, 2 hours.

English 301, 302. Survey of English Literature. The first semester traces the development of English literature from Beowulf to Pope. The second semester covers the eighteenth and nineteenth centuries. Prerequisite: Sophomore English. Credit, 3 hours each semester.

English 310. Literature for Children. Study of the types of literature and the best examples of each type available for use in the school and the home. Required in the A.B. Elementary curriculum. Prerequisite: Sophomore English. Credit, 3 hours.

English 320. Survey of American Literature. Study of the greater writers and their characteristic work. Required in the A.B. Elementary curriculum. Prerequisite: Sophomore English. Credit, 3 hours.

English 341. Literary Types in the Old Testament. A course offered by the Department of Religious Education, available for credit as English. Credit, 2 hours.

English 342. Literary Types in the New Testament. A course offered by the Department of Religious Education, available for credit as English. Credit, 2 hours.

English 350.2 Teaching English in the High School. Study of the special problems presented to the high school teacher of English. Materials and methods. Prerequisite: Sophomore English. Credit, 2 or 3 hours.

Sociology

MISS BROOKE

MR. STEELMAN

The Unified Education Bill, which was passed by the Legislature in 1927, provides for a more careful enforcement of the school attendance law. The State Board of Education has taken an advanced position in requiring that the supervisor of school attendance shall have training in social welfare.

Placing the enforcement of school attendance on a social service basis in Alabama has given additional prestige to social work in the state as well as extended to the children of rural communities a service that has generally been given only to the children of larger communities. It was the obligation of the state to provide the workers trained to carry out this program according to standards set up by the State Board of Education. Since for several years Alabama College has carried courses with the purpose in mind of interpreting social work to the prospective teachers and of recruiting interested young women for social work, Alabama College was designated by the State Board of Education as a state institution to supply this training. And so, modifying the curriculum of Alabama College to meet this new demand was merely a matter of an enlargement of a program that has had its root in several years of experience in college activities.

The course includes:

1. Foundation course in social sciences
2. Pre-vocational training in applied sociology
3. Technical training in the field of social service
4. Field work and inspection visits

Sociology 100. Personal Problems and Adjustments. A study of personal problems and adjustments to col-

lege life. Required of all freshmen taking Home Economics. Credit, 1 hour.

Sociology 201. Introductory Sociology. This course is designed to serve as a preliminary survey for those who plan to continue further in the field of sociology, and at the same time to provide students majoring in other fields with some insight into human origins and institutions. A necessary background for clear thinking regarding social processes and social problems is given in an analysis of the primary factors in social life, the geographical, the biological, the psychological, and the cultural. Credit, 3 hours.

Sociology 202. Introductory Sociology. A continuation of Sociology 201. Upon the basis of the primary factors of social life, there is a study of certain fundamental social arrangements whereby man has solved the major problems of living together in groups; material culture; myth, magic, religion and science; the family and its problems; and the state. Credit, 3 hours.

Sociology 210. Principles of Sociology. This course, designed for the student majoring in other fields, aims to analyze and interpret social experience and thus to prepare the student for a more intelligent participation in social life. After viewing the origin of social experience and the nature of personality, there is a study of the organization of human experience into social institutions—the family, property, the state, the church. Required of students taking Home Economics degree. Credit, 2 hours.

Sociology 220. An Introduction to the Study of Rural Sociology. A survey of the physical, economic, and social aspects of farm life. Special emphasis upon the major problems growing out of rural living. Required of majors in Home Economics. Credit, 2 hours.

Sociology 301. Survey. A survey course presenting a general view of social work; an introductory course for those students desiring to prepare for professional social work as well as for those having a general interest in the field. Credit, 3 hours.

Sociology 302. School Attendance. Brief sketch of the development of the public school system in the United States and of school attendance; the relation of the school to the community; state and county resources available to the school attendance officer; study of state law;

place of Alabama among the states in provision for school attendance. Credit, 3 hours.

Sociology 321. Social Case Work. Elementary course; principles and methods of case work; special reference to school attendance problems. Credit, 3 hours.

Sociology 322. Special Case Work with Children. This course includes a discussion of the rights of childhood, the problems growing out of the establishment of these rights, the organizations engaged in child welfare. Credit, 3 hours.

Sociology 330. Family Relations. Brief sketch of the history of the family; individual relations within the family group; traits fundamental to satisfying relations; the direction of individual development through the maintenance of interesting and challenging relations within the family. Prerequisite: Sociology 220 or equivalent. Credit, 3 hours.

Sociology 340. Recreational Leadership. A study of special movements and new theory and practice in recreational organization, planning, and leadership. This course offers practical instruction and field work. Credit, 3 hours.

Sociology 350. Principles of Sociology. After viewing the origin of social experience and the nature of personality, there is a study of the organization of human experience into social institutions—the family, property, the state, the church. Credit, 3 hours.

Sociology 370. Field Work in Social Service. A course offering practical experience for professional students in the field of rural social work. Arrangements are made for the students to work twelve to fifteen hours a week with the Shelby County Child Welfare Department as probation officers, school attendance officers, family welfare workers. The field work is carried on under the joint supervision of a member of the college faculty and the County Superintendent of Child Welfare. Credit, 3 hours.

Sociology 380. Social Ethics. Personal and social morality; a critical evaluation of the methods employed by society in handling the criminal, the immigrant, the poor, the race problems. Credit, 2 hours.

Sociology 421. Principles of Case Work. A course intended for professional students. It deals with the

general principles of social treatments of families in need. The course is based upon the study of case records and a systematic consideration of (1) the problems growing out of sickness, insanity or feeble-mindedness, non-residence, death, accident, or desertion of child bread winner, old age, illegitimacy, and dependency, and (2) the technique employed in meeting these problems. Credit, 3 hours.

Sociology 422. Juvenile Delinquency. A study of the cases and treatment of juvenile delinquency with reference to historic and modern methods of dealing with the problem. The technique of diagnosis, treatment, both institutional and supervisory, juvenile research and prevention. A study is made of the County Child Welfare Program of Alabama, which includes the relationships (1) between county units and the State Department, (2) county units and public and private child-caring institutions of Alabama. Credit, 3 hours.

Sociology 423. Social Legislation. A study of the principles underlying social legislation. Detailed study of the laws pertaining to organization and functioning of the Alabama State Child Welfare Department. Credit, 3 hours.

Sociology 430. Field Work in Community Organization. Credit, 3 hours.

Sociology 440. Personality and Social Adjustment. A study of problems of the individual arising out of his effort to make adequate adjustments to social situations. Personality difficulties are viewed with reference to their personal and social implications. General principles of treatment are illustrated with case-materials. A junior and senior elective. Credit, 2 or 3 hours.

Sociology 450. Contemporary Social Problems. An intensive study is made of selected social problems and social agencies—public opinion and the newspaper; the immigration problem; the industrial problem; the feminist movement; the problem of inter-racial relationships; health problems and the health movement; the problem of mental subnormality, etc. Readings from texts and periodical literature, class discussion and reports, lectures. A junior and senior elective. Credit, 1 hour.

Sociology 451. The Family. History and development of the family; present-day family. Credit, 3 hours.

Sociology 461. Community Organization. Study of principles underlying organization of the community activities and types of organizations. Credit, 3 hours.

Sociology 470. Field Work in Social Service. A continuation of Sociology 370. Credit, 3 hours.

Recitals

From time to time each student is presented in public recital, thus putting into practice the work of the class and private hours; learning how to please and to hold an audience; and gaining confidence for later appearance before the public.

Besides the general recitals, the juniors give a joint recital in the spring, and each senior gives an individual full evening program.

Many opportunities for readers to entertain societies, receptions, and various organization meetings are offered, where those prepared may go.

Speech Chorus

Chosen majors in the Speech Department make up this honorary group. Their work consists of choric speaking and interpretation.

The Play Workshop

The Workshop is a place where inexperienced players may be given a chance, and where original plays and skits and unpublished material may be presented.

The Children's Theatre

The children of the community have an organization which puts on plays under the direction of the Speech Department with speech majors assisting.

College Theatre

The College Theatre offers further opportunity for practical application of all theories, technique and practice. At least three all-college productions are presented during the year.

Announcement

The School of Education includes in its faculty experts in the fields of educational methods, psychology, and special subjects. In addition to the faculty of the School of Education, teachers in the departments of art, speech, home economics, commercial work, music, physical education, etc., co-operate in training teachers for these special fields.

A feature of special interest to teachers is a course in kindergarten training. During the years it has been a part of the curriculum, it has become quite popular.

Another feature of interest in the four-year curriculum in elementary education is a course in administration and supervision. The college is especially fortunate in the arrangements made for providing for this work. An arrangement has been in effect for several years with the Board of Education of Shelby County for the School of Education to take over the supervision of certain county schools within the vicinity of the college. This is of mutual benefit to the county in providing supervision for its teachers, and to Alabama College in providing a labo-

ratory for the training of elementary principals and supervisors. Demonstration and practice in this field are put upon a similar basis to demonstration and practice teaching in the training school.

Courses Announced in School of Education

Bachelor of Arts Degree in Elementary Education.

This is a four-year course for students preparing to teach in the elementary schools. There is a growing demand for elementary teachers with four years of professional training. Many of the school systems are making this a requirement for their teachers. For students interested in teaching in elementary schools the degree in this field probably offers as much or more chance to advance than the degree in secondary education. Seniors in this course who are interested in administrative problems may elect a course in elementary administration which will prepare them for an elementary principalship. Students with three years of teaching experience may also qualify for elementary supervisors.

Bachelor of Arts Degree in Secondary Education. All students who wish to obtain a certificate to teach the fundamental high school subjects must enroll in this course. With the present status of public high school teachers in Alabama, there is need for teachers who can teach more than one subject. Students finishing the course for secondary teachers will have a major and a minor subject, and will be prepared to meet the demands of the Alabama schools. Many high schools are putting in work in the special subjects of art, speech, home economics, music, physical education, etc. Alabama College offers special work in these fields along with the academic degree. Teachers with such qualifications are in demand in the high schools of the state.

A student finishing this curriculum may teach any subject in which she has had twelve semester hours of college credit.

Organized Courses for Teaching in the Special Fields.

In addition to the teacher-training courses in the academic subjects the following courses are outlined for teaching in the special fields:

B.S. in Art with Education.

B.S. in Secretarial Subjects with Education.

B.S. in Home Economics with Education.

B.S. in Physical Education with Education.

B.M. in Piano, Voice, Violin, and Public School Music.

(The outlines of the special courses are given in other parts of the catalog and will not be repeated here.)

Selection of Major and Minor Subject

There is a serious effort in Alabama to standardize certain teaching combinations. The State Department of Education, high school principals, and schools of education of the state colleges as well as those of the private colleges are co-operating in this.

The suggested combinations are:

1. English and foreign languages.
2. History and other social studies.
3. Mathematics and science.
4. Occupations for girls and English, or social studies.

Students enrolled in the A.B. curriculum in secondary education are asked to confer with the Director of the School of Education before selecting a minor subject.

In addition to a major and minor subject, students are urged to prepare to handle as many other subjects and activities as possible. Library science is suggested to students interested in this type of work. At present there is a demand in Alabama high schools for teachers who are qualified to take charge of the high school library along with teaching.

Teachers' Certificates

College Secondary Class B Certificate. A College Secondary Class B Certificate valid for a period of six years may be issued to a graduate receiving an A.B. degree in secondary education. This certificate will authorize its holder to teach in junior and senior high school. It may be converted into a Permanent certificate after four years of successful teaching experience.

College Secondary Class C Certificate. A College Secondary Class C Certificate valid for three years may be issued to a person who has completed three years of the curriculum leading to the A.B. degree in secondary education. This certificate will authorize its holder to teach in junior and senior high school.

College Elementary Class B Certificate. A College Elementary Class B Certificate valid for a period of six years may be issued to a graduate receiving an A.B. degree in elementary education. This certificate will authorize its holder to teach in grades one to six inclusive. It may be converted into a Permanent certificate after four years of successful teaching experience.

College Elementary Class C Certificate. A College Elementary Class C Certificate valid for a period of six

years may be issued to a person who has completed three years in the curriculum leading to the A.B. degree in elementary education. This certificate will authorize its holder to teach in grades one to six inclusive. It may be converted into a Permanent certificate after four years of successful teaching experience.

Term Special Subject Certificate. A certificate in a special subject such as music, art, manual training, and commercial branches valid for a period of six years may be issued to a recent graduate of a standard institution, the courses of which have been approved for the training of teachers of such subjects. This certificate may be converted into a Permanent certificate after four years of successful teaching experience.

School of Education Scholarships

In 1924 the School of Education granted two teaching scholarships. Since that time a larger number has been added. These scholarships pay school expenses for the time the student is in college. As a minimum requirement, the applicant must qualify for the Two-Year Professional Elementary certificate. Preference will be given to applicants who have had teaching experience.

The recipients of these scholarships assist the supervisors in the Training School, and pursue college courses not to exceed twelve credit hours per semester.

The training furnished in the collegiate courses, and in the work in the Training School, should fit the student upon graduation to enter the supervisory or administrative field.

Application for these scholarships should be made to the Director of the School of Education, Alabama College, Montevallo, Alabama.

Training School

By agreement, Alabama College conducts the elementary, junior high, and senior high schools for the towns of Montevallo and Aldrich. In its present organization the Training School has three divisions: the elementary division comprising the kindergarten and the first six grades, the junior high school division comprising the seventh, eighth and ninth grades, and the senior high school division made up of the tenth, eleventh and twelfth grades. Pupils of this school are drawn from no special class, but are typical Alabama children from typical Alabama communities. This fact offers a superior advantage to college students in that it provides an op-

portunity for them to do their student teaching in a public school environment.

The Training School has a two-fold function. First, it maintains as nearly as possible an ideal elementary and secondary organization. Second, it trains college students in the theory and art of teaching. The Training School is planned on the theory that the best interests of student teachers and the best interests of the elementary and secondary pupils must be made to harmonize. Whatever interferes with the proper development of one interferes with the proper development of the other. Student teachers can be given the best training in the theory and art of teaching only in a Training School offering the best type of educational advantages to the pupils of the school. For this reason the interests and welfare of the elementary and secondary pupils are considered of primary importance.

The State Course of Study and the State Adopted Textbooks are used in the Training School. The secondary department of the Training School is accredited by both the State Department of Education and by the Association of Colleges and Secondary Schools of the Southern States. These ratings place the high school department among the best high schools of the state. The Training School strives to lead in the state in the matter of up-to-date methods and equipment. Effort is made to maintain such standards of excellence in its work that it may at all times be offered as a demonstration of good teaching under conditions as nearly normal as possible in all respects. Untrained and unskilled teachers do not practice on the pupils. This problem is solved by having in each grade or subject a trained teacher, one chosen with the greatest care whose personality, native intelligence, and training fit him or her for the double duty of teaching children and of teaching student teachers to teach. The training teacher is at all times responsible for the entire work of his or her grade or subject.

The Training School offers observation, participation and student teaching facilities for those preparing for elementary teaching, secondary teaching, and the various special types of teaching including home economics, physical education, art, speech, piano, violin, and public school music.

Before being assigned to student teaching, a student must have senior class standing. The courses in methods should precede preferably, or parallel if necessary, student teaching in the elementary school. Methods of teaching a student's major and minor subjects should

precede preferably, or parallel if necessary, the student teaching of these subjects in the high school. Directed observation in the elementary school must precede student teaching in this division and directed observation in the high school must precede student teaching in this division. A student may teach in high school her major and minor subjects only. This presupposes that the student has an average of at least "C" in these subjects.

Placement Bureau

The School of Education conducts a Teacher Placement Bureau which places students or former students free of charge. The Bureau is handled very similarly to the commercial teacher agencies. The aim of this bureau is to put the school administrators and students or alumnae of Alabama College in touch with each other. In attaining this end, care is taken to avoid any partiality. The aim is to assure school administrators and prospective teachers real service from the Bureau.

The plan of the Bureau includes the following steps: In the spring of the year before teachers are elected, a list of all students available for teaching positions for the ensuing year is sent to the school administrators in Alabama. Following the name of each candidate is a description of her qualifications. (This has had the effect in the past of placing practically all of the four-year graduates in teaching positions some time before the date of their graduation.) One feature of the plan that has contributed to its success is that of collecting confidential statements directly from the references named by the candidates. By having these confidential statements on file the Bureau can give immediate service to school superintendents and principals, by suggesting candidates and by sending school men an unbiased rating from persons who are qualified to judge of the teaching ability of the applicants. This service is free to all students and alumnae of Alabama College.

The Extension Division

Another line of service which is incorporated under the School of Education is the extension service. A new spirit pervades the American college of today. It recognizes it as a duty as well as a privilege, not only to instruct the students within its walls, but to serve the entire state as far as possible.

Alabama College, the state college for women, has a unique place in the educational program of Alabama;

hence it wishes to project its influence and service into the communities and homes as well as to train those who live on the campus. The following program was announced for the year 1931-32.

I. Home Study Courses—Many of the courses given at the college may be taken through correspondence by those meeting the requirements for such courses. Further information may be obtained from the Director of Home Study Service.

II. Program Service for Women's Clubs—Annual courses are organized by various faculty specialists in different fields which will be of interest to club women. This service is free. Additional information may be obtained from the Director of Home Study Service.

III. Study Center Courses—Whenever possible the college will meet requests of groups for a study course in any field given on the campus. This past year approximately 500 students took advantage of this work. These courses are open to teachers, club women, or any group of adults.

IV. Lectures, Recitals and Concerts—The college faculty numbers among its members lecturers, artists, and composers of wide reputation and acknowledged ability. These are available for a limited number of engagements. For terms and dates apply to the Director of Extension Service.

V. Bureau of Educational Information—From time to time Alabama College issues bulletins concerning special educational features here and elsewhere for the general information of the people of the state. As far as possible these bulletins will be mailed to any address on application.

VI. Field Work in Parent Education—A field worker in parent education is available from Alabama College for adult classes. Organized instruction is given on various problems of child training and parental education. Units such as the pre-school child, problems of the adolescent and others are offered. Approximately 2900 parents took advantage of this work last year.

Announcement of Education Courses

Education 100. How to Study. The aim of this course is to introduce college students to effective methods of study and to help prospective teachers in instructing students. Elective. Credit, 1 hour.

Education 111, 112. Introduction to Education. This is an orientation course, and takes up teaching as an occupation. It is divided into two units of one semester each. The first unit will take up the study of the different fields of teaching and the organization of the school system. The second unit of the course takes up the qualifications required in different phases and levels of teaching. Credit, 1 hour each semester.

Education 211. Occupational Survey. The aim of this course is to give a practical presentation of information regarding occupations open to college women—explaining what they are, the education and training, and the personal qualifications needed for engaging in them, financial returns, and outstanding advantages and disadvantages which one field may present in comparison with others. Elective. Open to juniors and seniors. Credit, 1 hour.

Education 220. Public Education in the United States. A discussion of the development of the American school system, its beginning and organization will be taken up. Elective. Credit, 2 hours.

Education 300. School Management. This course deals with the general classroom problems of the elementary teacher, including discipline, school records, school hygiene, etc. Credit, 2 hours.

Education 301. Principles of High School Teaching. This course takes up problems applicable to all high school teachers, such as discipline, class management, examinations, teachers' reports, and so forth. Required of all applicants for the College Secondary Class B Certificate, and all Special certificates to teach in high school. Open to all juniors. Credit, 3 hours.

Education 302. Psychology of Secondary Education. This course consists essentially in a discussion of what goes on in the minds of high school boys and girls, while in the process of learning the various subjects taught in the high school. The emphasis is placed upon what the learner does, rather than what the teacher does. Some of the topics discussed are: maturity of the high school pupil, psychological distinction between the elementary and high school child, psychology of mathematics, English, foreign languages, fine arts, practical arts, natural sciences, social sciences, physical education, and administration. The aim of the course is to acquaint the prospective teacher with method as applied to other sub-

jects than her own, thus decreasing the likelihood of narrow formalism in teaching. Credit, 3 hours.

Education 311. Methods of Teaching Reading in the Lower Elementary Grades. This course will deal primarily with the methods in the lower grades. However, a discussion of the reading in the upper grades will be included with less emphasis. Required of all students taking four-year elementary curriculum, preparing to teach in lower elementary grades. Credit, 2 hours.

Education 312. Methods of Teaching Social Science in Lower Elementary Grades. This course will take up the entire field of social science in the first six grades. The project work in the lower grades will be given most emphasis. Required of all students taking four-year elementary curriculum, preparing to teach in lower grades. Credit, 2 hours.

Education 321. Methods of Teaching Reading in the Upper Elementary Grades. This course will emphasize the teaching of reading and literature in the upper grades. Some discussion of the teaching of reading in the lower grades will be included. Required of all students taking four-year elementary curriculum preparing to teach in the upper grades. Credit, 2 hours.

Education 322. Methods of Teaching Social Science in the Upper Elementary Grades. This course will take up primarily the teaching of history and geography in the upper grades. A small amount of discussion will be given to the teaching of social science in the lower grades. Required of all students taking elementary curriculum who are preparing to teach in the upper grades. Credit, 2 hours.

Education 330. Directed Observation in High School. This course will include observation and discussion of the more common high school subjects. Required of all students majoring in the A.B. curriculum for secondary education. Credit, 1 hour.

Education 332. Methods of Teaching Arithmetic and Penmanship in the Lower Elementary Grades. The major part of this course will be given to the teaching of numbers. However, a small unit will take up the teaching of writing. Arithmetic in the upper grades will be discussed briefly. Required of all students taking four-year curriculum preparing to teach in the lower grades. Credit, 2 hours.

Education 342. Methods of Teaching Arithmetic and Penmanship in the Upper Elementary Grades. The emphasis in this course will be based upon the teaching of arithmetic in the upper grades. A small unit will be devoted to the teaching of penmanship. The teaching of number work in the lower grades will be discussed briefly. Required of all students taking four-year elementary curriculum, preparing to teach in the upper elementary grades. Credit, 2 hours.

Education 350.1. Methods of Teaching Art. (Public School Art.) A laboratory and lecture course for art majors preparing to teach. Required of all students specializing in the teaching of art. Credit, 2 or 3 hours.

Education 350.2. Methods of Teaching High School English. Required of all students taking the A.B. course in secondary education who are majoring in English. Also all students minoring in English must take at least two hours of the course. Credit, 2 or 3 hours.

Education 350.4. Methods of Teaching History in High School. Required of all students taking the A.B. course in secondary education who are majoring in history. Also all students minoring in history must take at least two hours in the course. Credit, 2 or 3 hours.

Education 350.5. Methods of Teaching High School Mathematics. Required of all students taking the A.B. course in secondary education who are majoring in mathematics. Also all students minoring in mathematics must take at least two hours in the course. Credit, 2 or 3 hours.

Education 402.6. Methods of Teaching Music. Special methods course required of all students who are preparing to teach music in the public schools. See School of Music for credit.

Education 371.7, 372.7. Methods of Teaching Physical Education. Required of all students who are preparing to teach physical education. Credit, 2 hours each semester.

Education 350.8. Methods of Teaching High School Science. Instruction will be given in laboratory technique, ordering of materials, and methods of teaching the sciences taught in Alabama high schools. Required of all students majoring or minoring in science. Credit, 2 or 3 hours.

Education 350.9. Methods of Teaching Speech. Required of all students minoring in speech, who are preparing to teach in the public schools. Credit, 2 or 3 hours.

Education 350.10. Methods of Teaching Secretarial Science. This course will take up the teaching of secretarial science. Required of students who expect to teach secretarial work in high school. Credit, 2 or 3 hours.

Education 360. Vocational Guidance Through Girls' Organizations. The organization, aims, and methods of national organizations for girls, including "Girl Scouts" and "Camp Fire Girls" will be considered with the purpose of preparing the prospective teacher or social worker for organizing and directing such groups in connection with school, church or civic work. Elective. Credit, 2 hours.

Education 361. Junior High School Problems and Methods. The objectives and organization of the junior high school are studied. Required of all students taking the A.B. curriculum in secondary education who are preparing to teach in junior high school. Credit, 3 hours.

Education 362. The Junior High School Curriculum. Subject matter and methods in selected subjects. Required of all students taking the A.B. curriculum in secondary education who are preparing to teach in the junior high school. Credit, 3 hours.

Education 370. Directed Observation in the Elementary School. This course is an introduction to directed teaching. There will be observation and discussion of the teaching of all of the elementary school subjects. Credit, 2 hours.

Education 380. Visual Education. This course deals with the importance of visual education in teaching. Instruction will be given in both the source and use of visual materials. Special emphasis will be placed upon the technique of the use of pictures, stereopticon slides, and motion pictures, as instruments of learning. Credit, 2 hours.

Education 400. Character Development. This course is a study of the growth of character through school activities, both curricular and extra-curricular. Open to juniors and seniors. Credit, 2 hours.

Education 401, 402. Present Day Educational Problems. This course may be elected by students especially interested in research who are approved by the instructor. Various modern problems will be taken up from a research angle. This will be of especial value to students who expect to do graduate work. Credit, 2 hours each semester.

Education 410. Extra-Curricular Activities. The following problems are among the more important studied in this course: school clubs, literary societies, dramatics, social functions, student participation in government, physical education, school publications, commencement, school lunch, national organizations such as boy scouts, girl scouts, etc. The training school is used as a laboratory for studying the practical operation of many of these activities. The philosophy underlying an extra-curricular activity program is developed. Credit, 2 hours.

Education 412. Educational Sociology. This course deals with the relationship of the teacher to society. The functions and objectives of the school are discussed. Credit, 2 hours.

Education 420. Vocational Guidance. This course aims to introduce to the student the problems of educational and vocational guidance by a rapid survey of the literature in the field, and to set up standards for a comprehensive guidance program such as is feasible in the high schools of Alabama at the present time. The Alabama program for guidance through occupational studies for boys and girls is studied as one unit of the course. Other general topics studied are: vocational information and how the teacher may impart it, exploratory experiences as an essential feature of the junior high school program, vocational preparation, vocational counselling, and placement as a logical part of a comprehensive program of guidance. Open to juniors and seniors. Credit, 2 hours.

Education 421. Methods of Teaching Language and Spelling in the Lower Elementary Grades. Required of students taking A.B. course in elementary education who expect to teach in lower grades. Credit, 2 hours.

Education 430. Directed Observation in High School. This course will include observation and discussion of the more common high school subjects. Required of all students majoring in the A.B. curriculum for secondary education. Credit, 1 hour.

Education 431. Methods of Teaching Language and Spelling in the Upper Elementary Grades. Required of students taking A.B. course in elementary education who expect to teach in upper grades. Credit, 2 hours.

Education 432. Test Construction. This course is based upon a recognition of the need for teachers who are trained in the technique of making the greater part of their own classroom tests, rather than depending upon standardized tests entirely. In this course large numbers of tests which have been prepared by teachers are examined critically in the light of modern methods of test construction. Criteria for desirable tests are then examined, and construction begun. The student selects from her major field one of the textbooks now in use in the high schools of Alabama, and prepares a set of classroom tests based upon the content of this text. Frequent conferences with the instructor enable her to work out tests which, by constant improvement after actual teaching has begun, will possess high validity and reliability. Prerequisite: Education 460 or 470. Open to seniors. Credit, 2 hours.

Education 440. Directed Teaching in the Elementary Grades. Required of all students who expect to apply for the College Elementary Class B Certificate. Credit, 4 hours.

Education 441. Securing and Holding a Teaching Position. This course takes up methods of getting in touch with teaching vacancies, and methods of application. The discussion of holding a position will be based upon professional and social adjustments. A good deal of emphasis will be given to professional ethics. Open to students expecting to teach the following year. Credit, 1 hour.

Education 450. Directed Teaching in the High School. Required of all students who are applicants for the College Secondary Class B Certificate. Students will not be permitted to teach in subjects in which their college grade has been below "C". Directed teaching must be done in major and minor subjects. Credit, 4 hours.

Education 460. Tests and Measurements in Secondary Education. This course is designed to give the student an understanding of the significance of modern testing procedures, and to furnish actual experience in administering tests and evaluating test results. Both old and new types of tests and examinations are studied, and the merits and demerits of each pointed out. Some time is spent on the theory of testing, including elementary statistical procedures and their application to classroom use. Some practice is given in the preparation of tests, as well as in giving tests and scoring papers. Open to seniors. Credit, 2 hours.

Education 470. Tests and Measurements in Elementary Education. Same as above.

Education 471. History of Education. This course will be centralized primarily around the history of modern times. Characteristics will be traced between modern times and earlier development. This course will be required of all students taking the four-year curriculum in elementary education. Open to juniors and seniors. Credit, 2 hours.

Education 472. School Administration. This course is adapted to the needs of students preparing for school attendance work. The relation of the county superintendent and county supervisor to the school attendance officer will be discussed. Credit, 2 hours.

Education 480. Vocational Education. This course is a study of vocations open to women. Credit, 2 hours.

Education 481, 482. Elementary School Administration. This course will be open to a limited number of students who show special talent for this type of work. The course will give practical training by doing actual supervisory work in the county schools. This will be of special value to prospective elementary school principals and supervisors. Prerequisite: senior standing in the A.B. elementary course. Credit, 4 hours each semester.

Education 490. Principles of Education. This course is a summarization of the problems of teaching. An objective will be the formulation of a definite philosophy of education by each student. Required of all students in the A.B. curriculum of secondary education. Credit, 2 hours.

The School of Home Economics includes on its faculty well trained persons in the fields of child development, clothing and textiles, family relationships, food and nutrition, house planning and furnishing, household equipment, home management, institution economics, parent education and home economics teacher training.

In addition to the faculty of the School of Home Economics instructors in the departments of Art, Biology, Chemistry, Education, English, History, Modern Language, Music, Physical Education, Psychology, Religious Education, Secretarial Science, Sociology, and Speech cooperate in the several curricula open to home economics majors.

Curricula in the School of Home Economics are planned for those who wish to become proficient in home-making; those preparing to teach vocational home economics, general home economics; junior high school home economics, or specialized courses in home economics; those wishing to become dietitians; those interested in commercial home economics administration; those interested in home economics journalism; and those desiring to enter department store work. The School of Home Economics offers three major curricula that may be adjusted to prepare a student for entering the above mentioned fields—Vocational Home Economics Education, Institution Economics, and Retail Economics.

The Vocational Home Economics Education Curriculum has been approved by the State Department of Education. A major home project, planned and reported under faculty supervision, is also required of each student majoring in the Vocational Home Economics Education Curriculum. Students satisfactorily completing this curriculum are qualified to teach in the vocational home

economics high school departments of Alabama. This curriculum also gives the student a major in science, thus qualifying her to teach the sciences in the Alabama high schools. The student completing the teacher training curriculum is entitled to a Special Subject Class B Professional Certificate with majors in home economics and science. Since 1932 Vocational Certificates have been issued to students completing this curriculum who, in addition, have done a minimum of six weeks of directed teaching in an approved high school vocational class and submitted a record of approved homemaking experience of two years. This homemaking experience may be secured in short periods throughout the college years, such as during vacation time. The Vocational Home Economics Curriculum presents an inclusive program of home economics courses and, therefore, gives the girl the fundamental training that will be valuable to her as a future homemaker as well as provide her with training for a remunerative vocation for the "between" years. The Vocational Home Economics Education Curriculum gives a student interested in Journalism the fundamental background necessary for home economics journalism provided the student carefully selects electives in English, Home Economics, and other departments. The student who likes and knows how to write will have many opportunities for using this training, vocationally and avocationally.

The Institution Economics Curriculum prepares the student for admittance to "A" grade dietitian training hospitals as recognized by the American Dietetic Association. The term of training in these hospital training centers varies from six months to one year. This curriculum also provides training for the person interested in food administration work in colleges, school lunchrooms, commercial cafeterias, tearooms, and clubhouses. Supervised experience is provided through the college food department, the Montevallo public school lunchroom and cooperating well established commercial groups. By careful selection of electives, conducting a major home project, with the addition of one six weeks' summer school session after meeting the requirements of this curriculum a student may also meet the requirements of the Vocational Home Economics Education Curriculum.

The Retail Economics Curriculum offers training to the student interested in department store opportunities. Progressive department stores include on their personnel sales people, shoppers, buyers, assistant buyers, and stylists. This curriculum offers courses that give the

necessary background for this work and also provides supervised experience in a leading department store of the South. Only a selected number of home economics majors will be permitted to enroll in this curriculum. This curriculum also provides the girl interested and talented in either costume designing or interior decoration with the fundamental background training for these vocations. By careful selection of electives, conducting a major home project, and attendance of one six weeks' summer school session after meeting the requirements of this curriculum a student may also meet the requirements of the Vocational Home Economics Education Curriculum.

Other vocational fields open to home economics trained women, as provided by the curricula at Alabama College, include Cooperative Extension, Social Service and Commercial Home Economics Demonstration.

The Nursery School furnishes opportunity for the college students and parents of the nursery school children to observe the interests and responses of little children in their various activities as well as assisting in the nursery school program.

Closely related to this program in child development is the state-wide Parent Education Program that is carried on as a cooperative project with the State Department of Education. Two field workers in Parent Education are engaged full time in conducting parent education classes in a selected number of communities in the state.

Admission and Graduation

Each home economics curriculum is a four year course and requirements for enrollment in each curriculum are the same as for college admission. On satisfactory completion of any one of the home economics curricula, the students receive the Bachelor of Science degree.

Elective Courses Open to Other than Home Economics Majors

A great many students majoring in other departments often wish to take a sufficient number of home economics courses to give them an appreciation and a working knowledge of home economics in its various aspects.

It is suggested that the Liberal Arts curriculum (as noted on page 43) offers an excellent opportunity for meeting this need. By postponing freshman History or Mathematics to the junior year and using the remaining

elective hours in the other three years, a student may elect a sequence of home economics courses through each of the four years to give her a sound and comprehensive appreciation of homemaking in all its relationships. This arrangement does not provide the student with necessary training for teaching home economics but only provides an opportunity for the student to secure information and training that will be of service to herself and family for immediate and future use.

A study of foods, standard recipes, standard methods of cookery in relation to flavor, color, texture, food values, food-meal combinations, service and cost in relation to occasion and season; production and preservation of food in the home. Prerequisite: Home Economics 101, Chemistry 231 (or parallel). Fee \$5.00. Credit, 3 hours.

Home Economics 370. Meal Study. A study of menu planning for the family, stressing food selection and nutrition; organization of work; purchase and cost of food; meal preparation and table service. Prerequisite: Home Economics 270; Chemistry 232. Fee \$5.00. Credit, 3 hours.

Home Economics 372. Advanced Meal Study. This course includes the serving of special meals such as dinners, school lunches, teas, parties and banquets; choice of appropriate decoration and entertainment for the various occasions. Emphasis on organization and cost of large quantity preparation and service. Prerequisite: Home Economics 370. Fee \$5.00. Credit, 3 hours.

Home Economics 380. Nutrition and Dietetics. A study of the processes involved in the utilization of food by the body. Emphasis on an adequate diet for individuals and families; methods of checking adequacy; cost of adequate diet. Prerequisite: Biology 210, 220; Home Economics 370. Fee \$5.00. Credit, 3 hours.

Home Economics 382. Institution Administration. The organization of administrative work in cafeterias, lunch rooms, tea rooms and hospitals. A study of the physical equipment, working force, menus, markets and marketing conditions, food purchasing and accounts. A student must be a second semester junior major in Institution Economics. Credit, 3 hours.

Home Economics 470. Investigations in Cookery. Review of recent work in experimental cookery; study of factors affecting standard products including ingredients, proportions, methods, temperatures, utensils and appliances. Undergraduate or graduate credit. Prerequisite: Senior standing; Home Economics 380. Fee \$5.00. Credit, 3 hours.

Home Economics 471. Food Economics. The study of market conditions and marketing; legislation pertaining to foodstuffs; food production and consumption; the purchasing of canned foods, package foods, staples, fresh fruits and vegetables, meats and dairy products as to quality, cost, use. Undergraduate or graduate credit. Prerequisite or parallel: Economics 350 or equivalent. Fee \$2.00. Credit, 2 hours.

Home Economics 472. Food Demonstration Methods. Study of methods of lecturing and demonstrating food and meal preparation and service to home economics

classes and other groups. Prerequisite: Home Economics 372. Fee \$5.00. Credit, 2 hours.

Home Economics 474. Supervised Institution Experience. Supervised experience in the field of institution management. Prerequisite: Home Economics 382; senior standing in Institution Economics Curriculum. Credit, 6 hours.

Home Economics 480. Readings in Nutrition. A study of recent nutrition investigations and research to acquaint students with latest developments in nutrition and methodology employed in such work. Undergraduate or graduate credit. Prerequisite: senior standing; Home Economics 380. Credit, 1 hour.

Home Economics 482. Advanced Nutrition and Dietetics. Study of pre-natal, infant, and pre-school feeding; feeding the aged; diet in disease. Prerequisite: Home Economics 380. Fee \$5.00. Credit, 3 hours.

Vocational Home Economics Education

Home Economics 390. Methods of Teaching Home Economics in High Schools. A study of accepted educational principles applied to home economics teaching in high schools. Prerequisite or parallel; Education 301; junior standing in Home Economics. Credit, 3 hours.

Home Economics 490. Supervised Observation and Teaching in Vocational or Junior High School Classes. Prerequisite: Home Economics 390; junior standing in home economics. An average of "C" in home economics subjects is required to do student teaching. Credit, 5 hours.

Home Economics 492. Vocational Education in Home Economics. A study of the national and state programs for vocational education and their relation to the home economics program with special emphasis on the Alabama Vocational Home Economics program. Prerequisite: Home Economics 490. Credit, 3 hours.

Home Economics 590. Seminar in Home Economics Education. A study of recent educational studies and research to acquaint students with trends in education and home economics education. Graduate or registration approved. Credit, 2 hours.

Standards

The School of Music is a member of the National Association of Schools of Music. The requirements for entrance and for graduation as set forth in this catalog are in accordance with the published regulations of that Association.

Admission

Admission is based upon the same requirements as admission to the college. In subsequent paragraphs are found the musical requirements for entrance which would permit the average student to meet the graduation requirements without work in addition to that prescribed for the regular sessions of the four-year course.

Degrees

The Bachelor of Music degree is awarded upon completion of the general theoretical and academic requirements together with a major in which the required degree of advancement has been met. The following majors are offered: Composition, Organ, Piano, School Music, Violin, Voice.

Students who satisfy the theoretical requirements and have one year beyond junior standing in applied music may, at the end of their fourth year, receive a certificate of graduation from the School of Music which will be translated into a degree upon satisfactory evidence that the standards of advancement have been met.

Requirements for Graduation

Applied Music

The average student, to reach the standards set for graduation in the regular sessions of the four year course, should have achieved, in the majority of items specified,

degrees of advancement indicated later under the heading, Entrance Standards for Majors. The standards indicating the desired degree of advancement at entrance are of necessity given a liberal interpretation. It is usually possible with the aid of summer sessions for the normal student who enters with a deficiency to meet the requirements set for the end of the second year in time to keep her college class. The meeting of the standards at the end of the second year indicates that normal progress will prepare in two more years for the graduation requirements.

Theoretical Subjects

The average student should reach the required degree of advancement in the regular prescribed courses in Sight Singing, Ear Training, Harmony and Rhythm, Phrasing and Ensemble. In the latter course additional work to that prescribed is advised. In all of the above mentioned courses further work may be required at the discretion of the instructors.

State Teachers Certificate

The various curricula meet the requirements for the Alabama State Teachers Certificate.

Those students who are expecting to go on to further professional study and are not depending on certification may omit the education hours, substituting advanced courses in music and some academic work.

Recital

A full recital is required of all instrumental and vocal majors. Those students who take a major in composition, while meeting the same applied music standards as the instrumental major, are not required to prepare a recital.

Recital Class

Attendance at the recital class is expected of all majors. Each student's major teacher includes the recital class as part of the student's major subject record.

Physical Education

Physical education is required throughout the four-year course. Not only does this add to the students' physical well-being, but the classes in dancing do much

to develop the rhythmic perceptions. Music students, if they will make themselves known, will be excused gladly by the department from those games in which the fingers might possibly be injured.

Applied Music Requirements for Graduation

Organ

The candidate for graduation should have acquired ability in transposition at sight, open score reading and improvisation. She should also demonstrate ability in sight reading, in the accompaniment of the classic oratorios and masses, and in general service playing. She should have a large repertory of organ literature of all schools, classic and modern, of the degree of difficulty indicated by the following:

Bach (Peters Edition)

Book II. Fantasia and Fugue, C minor

Book II. Prelude and Fugue, B minor

Book IV. Prelude and Fugue, D major

Book I. Sonatas

Franck, Chorales, Piece Heroique

Widor, Symphony No. V

Guilmant, Sonata D minor, No. I

Vierne, Symphony No. I

Compositions for modern organ of some grade of difficulty by standard American and foreign composers.

Piano

The candidate must have acquired the principles of tone production and velocity and their application to scales, arpeggios, chords, octaves and double notes. She must have a repertory comprising the principal classic, romantic, and modern compositions which should include such works as:

Bach, Chromatic Fantasia and Fugue, toccatas, organ transcriptions by Busoni, Tausig, Liszt, D'Albert

Beethoven, later sonatas such as Op. 53, 57, and a concerto

Brahms, Rhapsodie B minor, Sonata F minor

Chopin, ballades, polonaises, fantasies, barcarolles, scherzi, etudes, preludes and a concerto

Liszt, rhapsodies, Paganini studies, transcriptions, a concerto

Schumann, Sonata G minor, Faschings-Schwank, Carnival, Concerto

Compositions by standard American and foreign modern composers such as MacDowell, Grieg, Rubinstein, Moszkowski, Debussy, Ravel, Rachmaninoff, and others.

Candidates must have had considerable experience in ensemble and should be capable sight readers.

Violin

The candidate for graduation should show an adequate technical grounding in scales, arpeggios, bowing and phrasing, and the ability to perform works of the difficulty of the Mendelssohn E minor concerto, the Bruch G minor or Spohr No. 8.

During the four-year course the student should have had not less than two years of practical orchestral experience and two years of ensemble. She should have studied the viola sufficiently to enable her to play viola in ensemble.

She should further demonstrate ability in sight reading and should be able to sight-read simple piano accompaniments.

Voice

The candidate for graduation should demonstrate the ability to sing the more difficult arias of opera and oratorio in English and in two foreign languages, a knowledge of recitative in both the free and measured forms, knowledge of the general song literature and the ability to give a creditable recital.

The repertory for immediate use should consist of at least four operatic arias, four oratorio arias, twenty classic and twenty standard modern songs.

The candidate should have completed two years of ensemble singing; she must also have completed sufficient piano study to enable her to play accompaniments of average difficulty.

Definitions of Standards of Attainment and Other Requirements

Composition

A student taking composition 401-402 with its prerequisites and meeting all other requirements of the in-

strumental course is considered a composition major and may be excused from the senior recital. A second instrument or voice may be studied, dividing the time assigned to applied music.

Organ

The average student wishing to major in organ will usually profit most by a year of piano in college. The Director will judge when the preparation is adequate to begin the study of organ. The organ major's course must show at least two hours in the regular ensemble class; four hours may be taken in chorus, glee club, or orchestra. If at all possible, the organ major should also work out a composition major.

Piano

Two hours of ensemble work must be done in the formal courses. The other four hours required may, at the choice of the student, be satisfied in the chorus, glee club, or orchestra at the rate of one hour a semester.

School Music

In voice the minimum degree of advancement acceptable for graduation is that prescribed for the voice major at the end of the second year—Examination 6.

In piano the minimum degree of advancement acceptable for graduation is that suggested for entrance to the piano major course—Examination 4.

The hours in voice and piano may be interchanged by the Director to meet the needs of the individual.

At least four hours in ensemble, either in the formal courses or in the glee club, chorus, or orchestra, must be presented for graduation.

A comprehensive examination in general musicianship covering the work in theoretical music (other than education and methods) and applied music will be required. The examination will be held by the Director, assisted by two faculty members.

Violin

The violin student, beginning at entrance, must take piano until her record shows four hours taken in course and she has developed ability to sight-read simple accompaniments—Examination 4. Ability to play the viola in ensemble is required at graduation. Work in Ensemble

and Orchestra in addition to the stated course in Rhythm, Phrasing and Ensemble is required.

Voice

The record at graduation must show at least six hours of piano in course and the ability to play ordinary accompaniments must be demonstrated.

The hours in ensemble are best taken in the glee club.

Applied Music Examinations

Semester examinations are held in all applied music subjects at the end of each semester according to the following outline. The examinations are numbered consecutively. No. 1 is held privately with the teacher; No. 2 to 4 with the faculty of the special department and the director; No. 5 up with the entire staff.

The material of the examination consists of special technical requirements fixed by each department, together with the performance of an assigned composition. This composition is to be prepared without assistance within a prescribed time limit. It is not necessary that the composition be memorized. The performer is concealed from the examiners. The particular points to be valued in the performance are found below. The average grades of the faculty or department will count one-third of the total grade for the semester.

Factors to Be Valued in Applied Music Examinations

Quality of Tone

Tone suited to character of composition, varied, and produced fluently even under technical and emotional stress.

Rhythm

Adequate basic pulsation suited to character of composition and to the means of performance. Accelerandos, ritards, and rubatos consistent in variation.

Phrasing

Figures, phrases, and larger elements of structure made sufficiently vivid to support consistently the character of the composition.

Dynamics

Climaxes of phrase, section, and whole composition with contrasts and gradations suited to the character of the composition.

Artistic Unity

Coordination of all elements inspired by conception of the composition as unity of emotional purpose.

Diction (Vocal)

Unrestricted projection of song in moderately sized auditorium so that the content is fully grasped by the auditor, even in passages of technical and emotional intricacy.

Intonation (Vocal, String, and Wind)

No deviations of a disturbing nature.

Total Semester Hours, Extra Hours

The normal number of hours to be carried by a student is sixteen hours a semester. The minimum requirement for four years is 128 semester hours. One hour in physical education in addition to the above is required each semester.

A student of one of the three upper classes, with a "D" average and whose applied music advancement does not correspond to her class advancement, will take fewer hours than the normal load until her average scholarship has been raised.

Entrance Standards for Majors

These standards are indicated for the benefit of teachers preparing students to enter the School of Music. The School will be glad to give further details when possible.

A liberal interpretation is given these standards at entrance. Through the "Grade of Advancement" examinations each student is able to know her exact relation to the graduation standard throughout her course. The normal student entering at the standard indicated below should be prepared for graduation by the regular sessions of the four year course.

Organ

The student should have completed sufficient piano study to enable her to play some Bach inventions, Mozart sonatas, easier Beethoven sonatas, compositions by Mendelssohn, Grieg, Schubert, Schumann, etc.

Piano

The student should be grounded in correct touch and reliable technique. She should play all major and minor

scales correctly in moderately rapid tempo, also broken chords in octave position in all keys and should have acquired systematic methods of practice.

She should have studied some of the standard etudes, such as Czerny, Op. 299, Book I; Heller, Op. 47 and 46 (according to the individual needs of the pupil); Bach, Little Preludes; a few Bach two-part Inventions and compositions corresponding in difficulty to

Haydn, Sonata No. II, G major No. 20 (Schirmer)

Mozart, Sonata C major No. 3, F major No. 13 (Schirmer)

Beethoven, Variations on Nel cor Piu, Sonata Op. 49, No. 1

Schubert, Impromptu Op. 142, No. 2, etc.

Violin

The student should have an elementary knowledge of the pianoforte. She should have the ability to perform etudes of the difficulty of the Kreutzer Etudes, Nos. 1 to 32, and works of the difficulty of the Viotti Concerto, No. 23, the de Beriot concerti, Nos. 7 and 9, and the Tartini G minor sonata.

Voice

The student should be able to sing on pitch with correct phrasing and musical intelligence standard songs in good English (the simpler classics are recommended). She should also demonstrate her ability to read a simple song at sight and a knowledge of the rudiments of music. Some knowledge of piano is urgently recommended.

Class Piano

Bachelor of Arts and Bachelor of Science students have the opportunity to take either private or class instruction in piano. In class instruction four or five students of equal advancement are combined to form a group as in any other college subjects. Classes for adult beginners are included also. Class instruction makes possible a greatly reduced fee.

Bachelor of Music Degree

The courses in the first and second years of all music curricula are considered foundational and therefore are the same in each curriculum.

Suggestions

All students of violin in the Bachelor of Music course must take piano in their first semester and each semester following, until the required degree of advancement, Examination 5 is passed. During the time it is necessary to carry piano, violin will be counted as four hours credit and piano as two hours.

All students beginning voice in college, who are able to devote more than one hour credit to the subject, must take Diction 101, 102 in place of one hour of the voice credit. This work in Diction saves time in the private instruction for other matters.

All students of voice in the Bachelor of Music course must take piano in their first semester and each semester following until the required degree of advancement, Examination 5, is passed.

Four hours additional in Harmony, Course 111, 112, may be required at the discretion of the instructor in Harmony 102.

Further work in Sight Singing and Ear Training, Course 211, 212, may be required at the discretion of the instructor in Course 202.

Courses in Theoretical Music

Music 101, 102. Sight Singing. Elementary theory, its perception and reproduction in sound. Scales, modes,

intervals, rhythm. Three hours a week. Credit, 1 hour each semester.

Music 201, 202. Sight Singing. Continuation of Course 101, 102. Three hours a week. Credit, 1 hour each semester.

Music 101, 102. Ear Training and Dictation. Elementary theory, its perception and recording. Scales, modes, intervals, chords, rhythm. Two hours a week. Credit, 1 hour each semester.

Music 201, 202. Ear Training and Dictation. Continuation of Course 101, 102. Modulation, exercises in four parts. Two hours a week. Credit, 1 hour each semester.

Music 221, 222. Sight Singing and Dictation. A continuation of the drill of course 202. Three or five hours a week. Credit, 1 or 2 hours each semester.

Music 111. Constructive Listening for the Beginner. An orientation and survey course. An appreciative approach to musical forms, the historical perspective, musical taste and criticism. Text: "Listening to Music."—Douglas Moore. One hour a week. Credit, 1 hour.

Music 112. Constructive Listening. A continuation and expansion of Music 111. May be taken without music 111 preceding. One hour a week. Credit, 1 or 2 hours.

Music 101. Harmony. Tonality, its perception, its establishment and notation, melody writing and harmonization, figured bass; modulation, foreign tones, altered and augmented chords. Four hours a week. Credit, 4 hours.

Music 102. Harmony. Continuation of Course 101. Three hours a week. Credit, 3 hours.

Music 111, 112. Harmony. A continuation of the drill afforded in Harmony 101, 102. Three hours a week. Credit, 2 hours each semester.

Music 201, 202. Counterpoint. Evolution of contrapuntal method from preceding harmonic experience; writing in the contrapuntal forms, invention, canon, fugue. Two hours a week. Credit, 2 hours each semester.

Music 450. Advanced Counterpoint. Continuation of Course 201, 202, for majors in Composition. Two hours a week. Credit, 2 hours.

Music 301, 302. Composition. Vocal writing. Short solo and choral settings; instrumental three-part song form, sonatina. Two hours a week. Credit, 2-5 hours.

Music 401, 402. Composition. This course offers opportunity to the properly qualified to complete the major in composition. Fugue in five sections, songs or compositions in smaller forms for student's major instrument, a sonata form for one or more instruments, scoring of a composition (not necessarily original) for full orchestra. Two hours a week. Credit, 3-5 hours each semester.

Music 102. Keyboard Harmony. Elementary harmony applied to the keyboard. Two hours a week. Credit, 2 hours.

Music 201, 202. Keyboard Harmony. An application of harmonic knowledge to the piano keyboard. Prerequisite: Examination 3 in Piano. Two hours a week. Credit, 1 hour each semester.

Music 251. Structural Analysis. Homophonic and contrapuntal forms, together with a consideration of the structural details of composition. Two hours a week. Credit, 2 hours.

Music 252. Harmonic Analysis. Analytical study of the harmony of Wagner, Franck, and a contemporary composer. Two hours a week. Credit, 2 hours.

Music 301, 302. Rhythm, Phrasing and Ensemble. Application of rhythmic and structural knowledge to group performance, accompaniment. Sight reading. Prerequisite: Examination for junior standing. The fundamental principles of this course will be presented by the Director, who will assign groups for the study of definite compositions to different members of the faculty. One two-hour period a week and practice. Credit, 1 or 2 hours each semester.

Music 401, 402. Rhythm, Phrasing and Ensemble. Continuation of 301, 302. One two-hour period a week and practice. Credit, 1 or 2 hours each semester.

Music 301, 302. Instrumentation and Orchestration. The theory and its application in scoring. It is expected that the work in this course will be augmented by courses in Wind and String Pedagogy. Two hours a week. Credit, 1 hour each semester.

Music 301, 302. Wind and String Pedagogy. Practice with the "key" instruments of each section of the orchestra and band. Two hours a week. Credit, 1 hour each semester.

Music 401, 402. Wind and String Pedagogy. Continuation of Music 301, 302. Prerequisite: 301, 302. Two hours a week. Credit, 1 hour each semester.

Music 401. Conducting, Orchestral. The technique of the baton, score reading. Procedure in forming an orchestra or band, tuning, the technic of rehearsal. Two hours a week. Credit, 1 hour.

Music 402. Conducting, Choral. The technique of the baton, score reading. Diction and its indication. Problems of Glee Club and Chorus. Two hours a week. Credit, 1 hour.

Music 402. Modern Harmony and Advanced Analysis. Text: Hull. Two hours a week. Credit, 2 hours.

Music 401, 402. Normal Training and Practice. The teaching of the private lesson for the beginning and elementary student. Prerequisite: junior standing in major applied music subject. One lecture, two teaching periods a week. Credit, 2 hours each semester.

Music 411, 412. Normal Training and Practice. The teaching of the class lesson for the beginning and elementary student. Prerequisite: junior standing in major applied music subject. One lecture, two teaching periods a week. Credit, 2 hours each semester.

Music 401, 402. Music Education, Aesthetics. The conditions of congruent reaction to musical elements or factors. Artistic purpose related to such reactions. An effort to coordinate and organize the study of the preceding years, and formulate an individual philosophy. Two hours a week. Credit, 2 hours each semester.

Music 301, 302. History of Music. An historical survey of the evolution of those musical forces which are directly effective at present. Especial stress is placed upon the period beginning with Beethoven to the present. Three hours a week. Credit, 3 hours each semester.

Music History and Appreciation. The following subjects will be offered in semester courses by different members of the faculty. The method will be a combination of the historical and appreciative approaches. The particular courses to be offered will be arranged as far

as possible to meet the needs and interest of the particular groups of students needing work in this department. These courses are exempt from the extra hour music fee of the B.A. and B.S. courses.

STUDENT ACTIVITIES

The Alabamian

The Alabamian is a school publication issued once every two weeks. In it are expressed the various interests and activities of the college. The first issue of the Alabamian was published in November, 1923. The officers for 1933-34 are: Editor-in-Chief, Eunice Thomas; Ann Fant and Elizabeth Souders, Associate Editors; Carolyn Reddoch, Business Manager.

Alabama Players

Alabama Players is the honorary dramatic organization on the campus. Its members are chosen by their activity in various dramatic productions.

Alabama Players has a close relationship with the College Theatre. It has an outer and inner circle of membership, which are, in turn, selected from the large theatre group. Membership in the theatre group may be based upon the achievement of eight points in two fields of activity. Membership in the second group may be secured through the achievement of fourteen points in three fields of activity. Membership in the highest group may be secured by the achievement of twenty points in four fields of activity.

The officers for 1933-34 are: President, Margaret Vaughn; Vice-President, Cherokee Shirley; Secretary-Treasurer, Margaret Alice Barbour; Business Manager, Elizabeth Souders.

Alumnae Association

The Alumnae Association was organized in May, 1902. Its membership is open to any former student of the College upon payment of membership fee, \$1.50 annually. This fee includes dues and subscription to the Alabamian.

The object of the organization is to assist with promotion of the interests of the College and the interests of graduates and former students.

The Association maintains the "Mary Goode Stallworth Memorial Scholarship Fund," a sum of more than \$2,500.00, with which it aids senior students according to stipulated terms of the Scholarship Fund. It now has four loans outstanding, one of the beneficiaries being a member of the 1932 graduating class.

The Alumnae Association sponsors each year a Home-Coming Day (the third Saturday in October); a Re-

union Luncheon (during the Alabama Education Association Convention, in the convention city); and an Alumnae Institute, held on the campus during the summer.

Since the Association is the organized medium through which former students of the College may keep in touch with each other, and with the College activities, all former students are urged to avail themselves of membership. They are requested to keep the Alumnae Office at the College informed of correct addresses.

Officers for the term which will expire October, 1933, are: President, Ulma Lee Benton (1919 and 1927); Vice-President, Mary E. McWilliams (1911); Secretary, Flora Belle Surles (1915); Treasurer, Nellie B. Moore (1931).

Regional representatives, whose duty it is to stimulate college-alumnae interest in various sections of the state, are: Northern District, Mrs. Marion Walker Spidle (1916) Athens; Central District, Mrs. Rebecca Sandlin White (1913) Alexander City; Southern District, Mrs. Nathalie Molton Gibbons (1930) Mobile.

Art Club

The Art Club is composed of art majors, together with a group of associate members who are interested in art.

The officers for 1933-34 are: President, Ruth LeBaron; Vice-President, Lois Willoughby; Secretary-Treasurer, Mary Louise Kreider.

Association for Childhood Education

The purpose of this organization is to gather and disseminate knowledge of the movement for the education of children; to bring into active cooperation all childhood education interests, including parent education; to promote the progressive type of education in nursery school, kindergarten, primary and elementary grades, and to raise the standard of the professional training for teachers and leaders in this field.

The officers for 1933-34 are: President, Margaret Holomon; Vice-President, Constance Marsden; Secretary, Mary Virginia White; Treasurer, Ruby Livings.

Athletic Association

The Athletic Association seeks to interest every student in some phase of outdoor recreation, giving her an opportunity to contribute her part to the school life through basketball, volley ball, hockey, baseball, hiking,

archery, tennis, swimming, and other sports. Its purpose is—To promote the health, recreation, and friendship of the students; To create a joyous interest in play; To stimulate and foster the highest type of college spirit.

Through its executive board, the Athletic Association arranges intra-mural games, sponsors camp activities, tennis and archery tournaments, swimming meets, play days and sports days, and promotes sport spreads after each sport season when honorary varsities are announced, and also sponsors dances and parties for the student body during the year.

The Association offers each year a silver loving cup to the class winning the all-year championship for excellency in athletics.

The College Camp was planned by the Association and the Board has assumed responsibility for the upkeep of the Camp House, although any girl or faculty member may use the camp.

The Association has established a loan fund from which small amounts may be borrowed, to be paid back as soon as possible after leaving college.

The officers for 1933-34 are: President, Mildred Lloyd; Vice-President, Marion Bozenhard; Secretary, Billie Sims; Treasurer, June Hamilton.

Calkins Music Study Club

The Calkins Music Study Club is designed to promote the social enjoyment of its members and to aid in the stimulation of general appreciation of music on the campus.

The officers for 1933-34 are: President, Ala Mae Hudson; Vice-President, Sarah Cater; Secretary, Katherine Savage.

College Theatre

The College Theatre was established in May, 1929. It is not a department of the college, but an extra-curricular organization. It exists for several purposes: to provide a theatre for the college and community; to provide a means of self-expression for the students; to provide an opportunity for the students to secure training in various phases of dramatic art.

The College Theatre is committed to the policy of producing the great dramatic classics of the world, and of encouraging, by means of a playwriting contest, and of production, the creative work of Southern writers.

During the four years of its existence the Theatre has produced the following plays: **Gammar Gurton's Needle**; **Beggar on Horseback**—Kaufman and Connelly; **Antigone**—Sophocles; **The Importance of Being Earnest**—Oscar Wilde; **The Assumption of Hannele**—Gerhart Hauptmann; **Much Ado About Nothing**—Shakespeare; **The Imaginary Invalid**—Moliere; **When the Dead Live On**—Walter H. Trumbauer; **Mr. Pim Passes By**—Milne; **Bonds of Interest**—Benavente; **The Chalk Circle**; **Captain Applejack**—Hackett.

Concert and Lecture Series

Each year the College provides a series of concerts and lectures. The finest of the world's talent has appeared upon the series. The success of the concerts and other programs has been greatly enhanced by the fine stage and auditorium of Palmer Hall.

Among those who have appeared on this series are: The Heerman Trio; The Chicago Art Theatre; Major C. Douglass Booth; Mrs. Percy V. Pennybacker; Robert Elwyn, Tenor; F. Mortimer Walsh; Eugene Dressler, Tenor; Cincinnati Wind Ensemble; The English Singers; Kreutzberg Dancers; Cossack Chorus; Abbey Theatre Players (Dublin, Ireland); Barrere Little Symphony; Reinald Werrenwrath; Mischa Livitski; Frieda Hempel; Ifram Zimbalist, Harold Bauer, Russian Symphonic Choir; Susanne Keener; El Shuco Trio; Albert Spaulding, and others.

The officers for 1933-34 are: President, Carolyn Reddoch; Vice-President, Mary Albritton; Secretary-Treasurer, Mary Ledbetter.

Social Service Club

This club was organized April 27, 1928. Its object is to familiarize the majors in Social Science with the scope and nature of social work, its problems and practices, and to widen the social contact of these students with able leaders and instructors of a social service nature.

The officers for 1933-34 are: President, Sara Lou McDonald; Vice-President, Frances Clay; Secretary-Treasurer, Mary John Weldon; Reporter, Grace Lee Newkirk.

Speech Club

The Speech Club was organized in 1925 by majors with the head of the Speech Department. The aim of the group is professional study and to develop the possibilities in the speech field throughout the State of Alabama specifically, and the South generally.

The officers for 1933-34 have not been elected.

Student Government Association

Each student becomes a member of the Student Government Association, after having passed examination on the student hand book. The management of this Association is vested in an Executive Board.

The duties of the Board are three-fold: Executive, judicial, and legislative. All matters of discipline coming within the limits of the authority of the Association are considered by the Board.

The ideal of the Association and the goal toward which it is constantly striving is complete self-government for each student in the college.

The legislative duties are now largely turned over to the Student Senate which is described below.

The officers for 1933-34 are: President, Lena Mae High; Vice-President, Aline Blair; Secretary, Isabel Henderson; Treasurer, Kathryn Martin.

Student Senate

A group, entitled the "Student Senate," was called into being by the Executive Board in March, 1925. A scholarship average of "B" is required for membership, which is made up of twenty seniors, fifteen juniors, twelve sophomores, and ten freshmen. The object of creating this new organization was to divide responsibilities and to give a larger number a responsible part in student government.

The aim of the organization is to foster the highest type of college spirit, to preserve the high traditions of the college, and to raise the standards and ideals along all lines of development at the college.

The officers for 1933-34 are: President, Grace Lane; Vice-President, Fan Ruth Pledger; Secretary, Frances Ribble; Treasurer, Evelyn Pow; Reporter, Ann Chandler; Chairman of College Relations Committee, Frances Koch; Chairman of Public Service Committee, Mary Frances Merrill; Chairman of Personal Service Committee, Katherine Savage; Chairman of Publicity Committee, Ida Kathryn Coker.

The Tower is the literary publication of the College. It provides expression for the group in each class which is interested in creative writing.

The Editor-in-Chief for 1933-34 is Lena Clare Shackelford.

Y. W. C. A.

The Young Women's Christian Association, through its social life, Bible and mission study, religious meetings,

and Association relationships, seeks to promote right living in the school community and to train students for Christian work. The work of the Association begins with welcoming new students and with being hostess at various social functions. It endeavors to create a spirit of friendliness and fellowship throughout the entire student body.

The Association is a part of the South Central Field and is affiliated with the National Board of Y. W. C. A. of America. It is visited by field secretaries, and delegates are sent to the Southern General Conference at Blue Ridge, N. C. Through the Association relationships, the students are brought into touch with the larger movements among students in the South, the nation, and the world.

"Morning Watch"—a short prayer service—is held each morning after breakfast in each dormitory, and vesper services are held on Thursday and Sunday evenings. These meetings give students an opportunity for worship, and train them for leadership.

Some of the interesting features of the Y. W. C. A. are: maintaining the College Tea Room; offering a scholarship which is seventy-five per cent of the Tea Room profit each semester; and, the Big Sister Organization, which enlists many of the former students in welcoming the new girls. As each student enrolls, she is assigned a "Big Sister," who takes a personal interest in helping her make the right adjustment to college life.

The officers for 1933-34 are: President, Dorothy Day; Vice-President, Margaret Coley; Secretary, Isabel Henderson; Treasurer, Evelyn Houck.
